## A Message from the Town Administrator

Dear Residents,

I am very pleased to deliver what will now be my third Annual Report to the Town of Seekonk. I am honored to serve the Town and its residents in the capacity of Town Administrator and I am thankful to the Board of Selectmen for continuing to entrust me with this role. I am very fortunate to be working in a community that is made up of so many residents committed to the preservation and growth of their town. Without the contributions of volunteers, many of Seekonk’s successes would not be possible.

**Shawn E. Cadime**  
Seekonk Town Administrator

I am pleased to report that by working together the Town’s financial position remains strong with a positive outlook. Based on our strong financial position and strong management, we continue to build and improve upon our departmental policies and procedure in order to ensure that adequate services are being provided to all of our residents and businesses in the most effective and efficient manner.

The Town’s building projects continue to reach significant milestones. As the Seekonk Senior Center reached completion, on time and under budget, and is now fully operational, we embark upon the beginning stages of revitalizing the Animal Shelter project and shifting our focus to Phase II of the Senior Center Building.

I would be remiss if I did not take an opportunity to thank my administrative team and all Town employees for their hard work and dedication to the Town. The Town of Seekonk is truly blessed to have some of the most knowledgeable and dedicated employees in the Commonwealth!

Sincerely,

A handwritten signature in blue ink that reads "Shawn E. Cadime". The signature is stylized and fluid.

Shawn E. Cadime

### **Board of Selectmen**

David J. Andrade  
*Chairman*

Nelson Almeida  
*Vice Chairman*

David F. Viera  
*Clerk*

David S. Parker  
*Member*

Michelle A. Hines  
*Member*

The 2016 has been another successful year for the Town of Seekonk. We had filled the vital positions of Building Inspector and Director of Public Works and negotiated several key contracts. With the completion of the Senior Center, the Veterans Memorial Park, the securement of the new cemetery location and Standards & Poors affirmation of our AA+ bond rating, the Town is securely footed as we focus on the remaining our needs.

Overall, our Board is comprised of individuals who, though we may not see eye to eye on all issues that come before us, are able to focus on the issue at hand and are not afraid to make tough choices in the best interests of the Town. We continue to stress the importance of citizen involvement on our many boards and committees by announcing the openings at every meeting.

Lastly, I would like to take a moment and acknowledge our police, fire, and communications departments. Nationally this year was an especially hard year for law enforcement and despite those issue our departments were able to focus their efforts on the issues here in Seekonk and perform in their usual, exceptional manner.

Sincerely,

David J. Andrade  
Chairman

*"In accordance with the provisions of Chapter 41, Section 61 of the Massachusetts General Laws, I hereby submit my annual report of the financial transactions of the Town for the Fiscal Year ending June 30, 2016."*

**Bruce N. Alexander**  
**Director of Finance**

## Board of Assessors

In accordance with Massachusetts General Law Chapter 40 Section 56, the Board of Assessors continue the town-wide measuring and listing of residential, commercial, industrial properties and personal property. The Board of Assessors commenced the on-going cyclical re-inspection program. In FY'16, the Division of Local Services conducted an audit as part of a 3 year program, insuring the quality and methodology of our process.

The Board of Assessors is required to keep values of property within strict limits of value according to sales in a statistical report submitted to the Department of Revenue (Division of Local Assessments).

All property data, GIS, town maps, and state forms are available on the town's website ([www.seekonk-ma.gov](http://www.seekonk-ma.gov)). Also, a public access computer is available in the Assessor's Office. Information about the Assessor Board's meeting minutes, agendas, and reports can be found on their page under Boards and Committees.

From July 1, 2015 thru June 30, 2016, the Board of Assessors, committed taxes to the Town Collector for the following:

#of Bills

Motor Vehicle Excise	19,859
Real Estate Tax Bills	6,496
Personal Property Tax Bills	580
Septic Betterments	31
Boat Excise	48
Farm Animal	19

The Board of Assessors asks for the continued support of the Seekonk taxpayers in helping us develop values for the upcoming FY'17 valuation.

Respectfully submitted,  
SEEKONK BOARD OF ASSESSORS

*It is our mission to be a primary provider of information and quality services to the community and to work cooperatively and in coordination with the varied departments and groups while performing a myriad of tasks to achieve established goals and comply with state and local statutes.*

## Seekonk Town Clerk

The year 2016 will be a very busy year for the Town Clerk's office. In January, 2016, the annual census goes out to each household in the town and when they are returned they need to be entered into the State computer system. In March, dog license renewal time and this past March was the Presidential Primary election.

The town election is held in April and then we prepare to send out confirmation cards to voters who have not answered the current census. September 8th is the State Primary election which prepares the candidates for the November election. Presidential election years are extremely busy for all the City and Town Clerks across the Commonwealth. This year, the legislature in Boston voted many changes to the election laws. One of the major changes is early voting for the November election. This is a first for Massachusetts, so it has been a learning exercise for all of us. After the election cycle is totally over it will be interesting to evaluate and try to improve the system that Boston put in place.

We continue to work closely with Animal Control to get all dogs in Seekonk licensed. Licensing is an important function of the town to make sure that dogs are current with their rabies shots and also, if the dog gets loose, it can be tracked back quicker to the owner if it is properly licensed.

We want to thank all our wonderful poll workers and registrars. They help us manage efficient elections and town meetings and we appreciate their work.

Respectfully Submitted,  
Jan Parker  
Town Clerk

**\*\*\*The Election Tally Sheets and Town Meeting Warrants can be found at the end of the Annual Report.**

## Planning Board

The Seekonk Planning Board is a seven-member elected board, which implements the Town’s Subdivision Rules and Regulations, ensuring that streets, sidewalks and utilities under construction in a subdivision meet the Town’s specifications and standards. The Board also administers Site Plan Review as required by the Zoning By-Laws, proposes revisions to the Zoning By-laws and engages in long term planning efforts on behalf of the Town in coordination with the Board of Selectmen, other town departments and boards, state agencies and regional organizations.

### Planning Board

Neal H. Abelson  
*Chairman*

David Sullivan, Jr  
*Vice Chairman*

Ronald Bennett  
*Clerk*

Sandra M. Foulkes  
*Vice Clerk*

Phoebe Lee Dunn  
*Member*

Michael Bourque  
*Member*

James Roach  
*Member*

John Aubin III  
*Town Planner*

Members included, Neal H. Abelson, Michael Bourque, Lee B. Dunn, Sandra M. Foulkes, Ronald Bennett, James Roach and David Sullivan, Jr. On April 5, 2016, James Roach and Lee B. Dunn were reelected to serve on the Planning Board.

April 12, 2016, the Planning Board voted to re-organize their members: Neal H. Abelson, Chairman; David Sullivan, Jr, Vice-Chairman; Ronald Bennett, Clerk; and Sandra M. Foulkes, Vice-Clerk.

### Public Hearings

September 8, 2015, the Planning Board held a public hearing to update the Zoning Bylaws to better integrate the 2014 reorganization of the by-laws and the 2015 adoption of the Groundwater Protection Overlay District.

March 8, 2016, the Planning Board held a public hearing on proposed revisions to the Zoning By-laws regarding definitions, site plan review, the use and dimensional regulations and development design standards.

## Planning Board Continued

---

The Planning Board held two (2) public hearings on proposed Definitive Subdivisions and took formal action on twelve (12) other residential developments with regard to surety amounts, covenants, and the completion of public improvements.

### Plan Reviews

Plans reviewed by the Planning Board in FY 2016:

#### **Subdivisions:**

Form A Plans: 9 submittals reviewed; 19 new lots created.

Preliminary Plans: 1 submittals reviewed; - Brady Estates 11 residential subdivision

Definitive Plans: 2 submittals reviewed;

Curt Street Extension: 4 lots approved

Stone Ridge: 11 lots approved

Total of 34 new lots created

#### **Site Plans:**

13 Site Plan submittals approved representing approximately 300,000 square feet of authorized new building construction, a cellular communications tower, and a large solar photovoltaic facility.

## Planning Board Continued

---

In addition to the above listed applications and amendments, the Planning Board and Town Planner also works on the following miscellaneous projects over the last fiscal year:

- ✓ Seekonk Bikeway 52 mile town wide bicycle plan;
- ✓ Adoption and implementation of a the Seekonk Technical Review Committee - a staff level body engaged in the review of applications before the Planning Board;
- ✓ Revision of the Zoning Board of Appeals application and application guide book;
- ✓ Preparation of amendments to the Rule and Regulations Governing the Subdivision of Land in the Town of Seekonk;
- ✓ Development of guidelines for the Seekonk Economic Incentive Initiative;
- ✓ Tax Increment Finance Agreement for 1977 Fall River Avenue between FedEx, Scannell Properties, and the Town of Seekonk;
- ✓ Development of the Seekonk Non-criminal Code Enforcement Program for fire and building code violations;
- ✓ Participated in 2 business outreach events with the Seekonk Economic Development Committee; and
- ✓ Developed a business outreach letter with the Seekonk Economic Development Committee;

More information on most of the above listed applications and items can be found on the Planning Board's webpage at:

[www.seekonk-ma.gov](http://www.seekonk-ma.gov) under Departments>Planning

Respectfully Submitted,

John J. Aubin, III  
Town Planner

## Zoning Board of Appeals

---

The Seekonk Zoning Board of Appeals consists of five regular members and three alternate members who are citizens living within the confines of the Town, and are appointed by the Board of Selectmen in accordance with provisions of Section 12, Chapter 40A of the General Laws. The term of office for members is three years.

### Zoning Board of Appeals

Roger C. Ross  
*Chairman*

Gary S. Sagar  
*Vice Chairman*

Shane Halajko  
*Member*

Robert W. Read  
*Member*

Keith Rondeau  
*Member*

Neal Abelson  
*Alternate Member*

The Zoning Board of Appeals is empowered to hear and decide appeals of a decision of the Inspector of Buildings, for applications for Special Permits, and petitions for Variances from any person aggrieved by reason of his inability to obtain a permit or enforcement action from any administrative officer under the provisions of the Town of Seekonk Zoning By-laws or Chapter 40A of the General Laws.

This year members included: Roger C. Ross, Esq., Chairman; Gary Sagar Vice Chairman; Regular Members: Keith W. Rondeau, Robert W. Read and Shane Halajko,

Alternate Members: Neal Abelson

The Zoning Board of Appeals was organized as Roger C. Ross, Esq., Chairman; Gary S. Sagar, Vice Chairman; and Bridget Garrity, Clerk. Robert W. Read accepted a three-year re-appointment as member and Neal Abelson accepted a three-year re-appointment as an alternate member.

The Rules and Regulations for the Zoning Board of Appeals was updated and adopted on May 2, 2016. The Planning Board updated and adopted the Zoning By-Laws, incorporating revisions through the Town Meeting held on May 16, 2016.

## **Zoning Board of Appeals Continued**

---

For Fiscal Year 2016, the Zoning Board of Appeals held Public Hearings for the below listed and heard:

- 13 - Applications for Special Permits
- 12 - Petitions for Variances
- 9 - Appeals to Building Inspector's Decision
- 1 - Appeal to a Town Official
- 1 - Withdrawn without prejudice

Respectfully submitted,

Roger C. Ross, Esq.  
Chairman

*“We are a very proud department and we strive to provide a high level of service to our citizens as well as those visiting our many retail and commercial areas”*

*- Chief Mace*

## Police Department

We started Fiscal Year 2016 with identifying and charging an Attleboro man for the death of Assistant Town Clerk Karen McHugh. Many more hours of investigation were expended to fortify the case. The suspect eventually pleaded guilty and received a minimal sentence. The closure was welcome, but there was no celebration as Karen could not be returned to her family and friends.

We continued to increase our staffing to meet the needs of our Town. Effective January 1st, we were budgeted for 38 officers. We experienced a 25% increase in calls for service. Much of the increase can be attributed to our officers being proactive in their duties. We also improved documenting our activities.

On the personnel side, we had three retirements. We welcomed the start of eight new patrol officers throughout the year. Three patrol officers were promoted to the rank of sergeant.

We maintained our commitment to being present in and around our school zones during arrival and dismissal times. Officers also continued their daily tours of the schools while in session. We continued to work cooperatively with the school department and other public safety agencies for the safety and well-being of school students, faculty and the general public.

Our participation with the Homeland Security Human Trafficking Task Force (based in Providence, RI) increased. Members of our agency participated in several area human trafficking stings/investigations resulting in many arrests. We conducted our first human trafficking sting/investigation in March that resulted in the arrest of 11 people.

**Craig A. Mace**  
**Chief of Police**

## Police Department Continued

---

During the year, we continued to update our information technology systems. Efforts were initiated to plan the improvement of our entire radio system as we experienced numerous failures and the system nears its end of life.

In November, our daily appearance significantly changed when we transitioned to an all-navy-blue uniform. The uniform was cooperatively developed among our police officers for functionality, appearance, and safety.

Our officers, through our Police-Fire Hockey team and road races, participated in a number of charity events. It was nice to see our officers get together off duty to raise money for charities such as Cops for Kids with Cancer and the Seekonk Save-A-Pet Society.

We added an all-terrain utility vehicle to our fleet. The vehicle was used by certified members of our agency to patrol remote areas of town. It was also used as part of our regional search & rescue team.

Department information may also be garnered from our weekly Police Beat show on Seekonk Cable 9, from our web site ([seekonkpd.com](http://seekonkpd.com)), Facebook, and via Twitter.

Respectfully submitted,

Craig A. Mace  
Chief of Police

## Fire Department

The demands of the Community during fiscal year 2016 continued to present a challenge for our Public Safety Department. However, just as in previous years, Department members remained steadfast in their dedicated approach to serving the Community. The Seekonk Fire Department responded to 3,136 emergency incidents for the year, which was an eleven (11) percent increase over the previous year's

total. Thankfully, with the support of the Community, Town leadership and the dedication of Department personnel, we were once again able to meet those calls for service.

The Department over the year increased its staffing levels and now operates with seven (7) firefighters and one (1) Lieutenant per group. The Department through planning will continue to work on the staffing issue that we have.

For the first time in the history of the Department we have a fulltime Fire Prevention Officer. Lt. Sandra Lowery was promoted to the position of Administrative Captain and will take on the task of Fire Prevention as well as other duties. With the creation of the position, it will not only address immediate issues but over time will properly issue permits, handle plan review, coordinate inspections, perform mandated inspections of buildings and increase revenue.

With the promotion of Captain Lowery, Firefighter Jeff Magill was promoted to the rank of Lieutenant and will now be in charge of "B" group. I wish both of them well in their new positions.

*Our Mission is to provide the best possible “community service” which lends itself to a safe environment for those who live in, work in, or visit the Town of Seekonk. Our goal is to protect life and property with professionalism which is accomplished with well-educated and properly trained personnel who are dedicated to the Community they serve.*

## Fire Department Continued

The E.M.S. Division remains our busiest portion of the Department; notwithstanding the addition of newly licensed paramedics, it is easier for us to staff two (ALS) Ambulances which helps us provide optimum service to the community and not rely on mutual aid to cover our calls. By being aggressive and proactive our ambulance billing collections continue to increase. The

improvements to our computerized EMS reporting system continued to provide the most efficient method available for billing purposes; allowing for optimal and speedier revenue receipts.

Through two different Town Meetings, the citizens approved the purchase of two aging heart monitors that were replaced with state-of-the-art monitors, which were very much needed. The voters also funded, for the first time, the purchase of two automatic C.P.R. devices which will enhance our ability to handle a heart attack incident.

The citizens also approved the funding of our new ladder truck. The vote replaced a thirty (30) year piece of apparatus with a new ladder which has several much needed features to it, to help us handle the demands that are placed upon us.

The administrative staff will continue to evaluate the needs of the community which continue to increase year to year. We will look at staffing, apparatus, short term and

## Fire Department Continued

---

long term planning to meet the needs and demands of the community as well as being conscious of the cost to provide the services that we are required to provide.

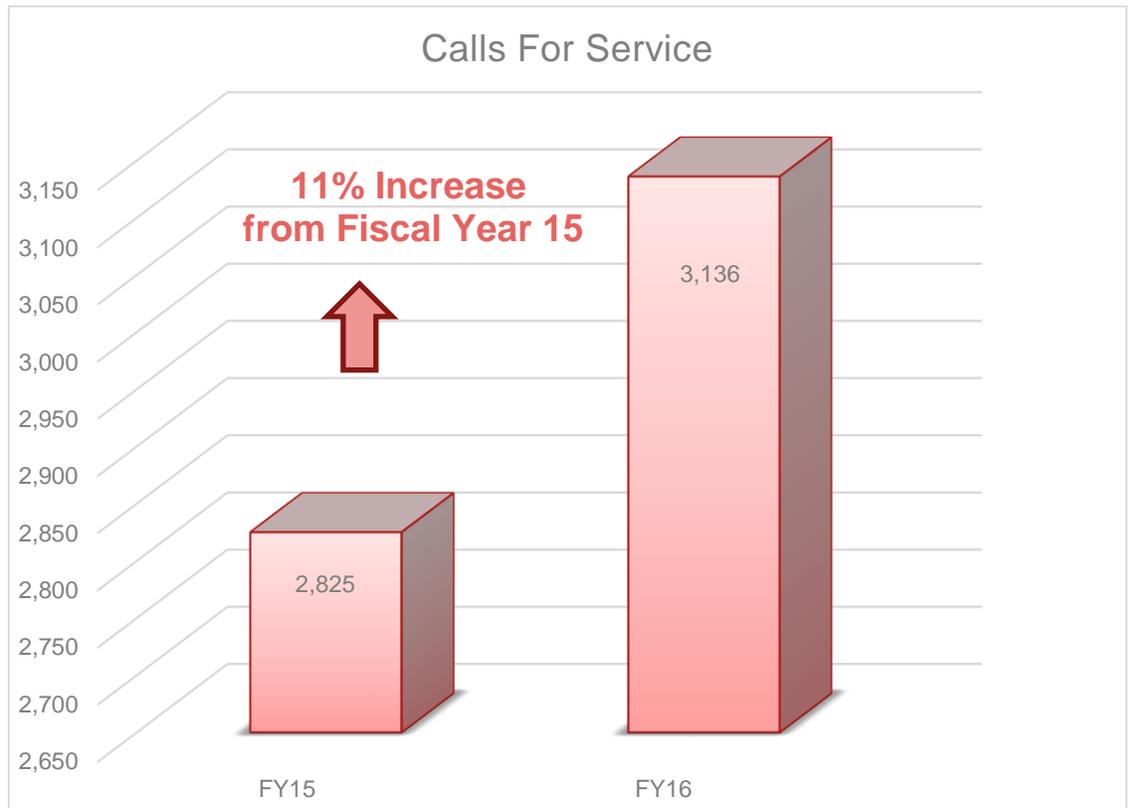

In closing, I would like to thank every member of the Seekonk Fire Department for everything that they do; they truly show the spirit of dedicated "Community Service." I want to thank the residents of Seekonk for their support because without that it would be difficult to move forward. I would like to thank the Town Administrator and the Board of Selectmen for their endless support that they have shown to not only to the Fire Department but also to the Town as a whole. It has been my honor to serve as your Fire Chief over the last year.

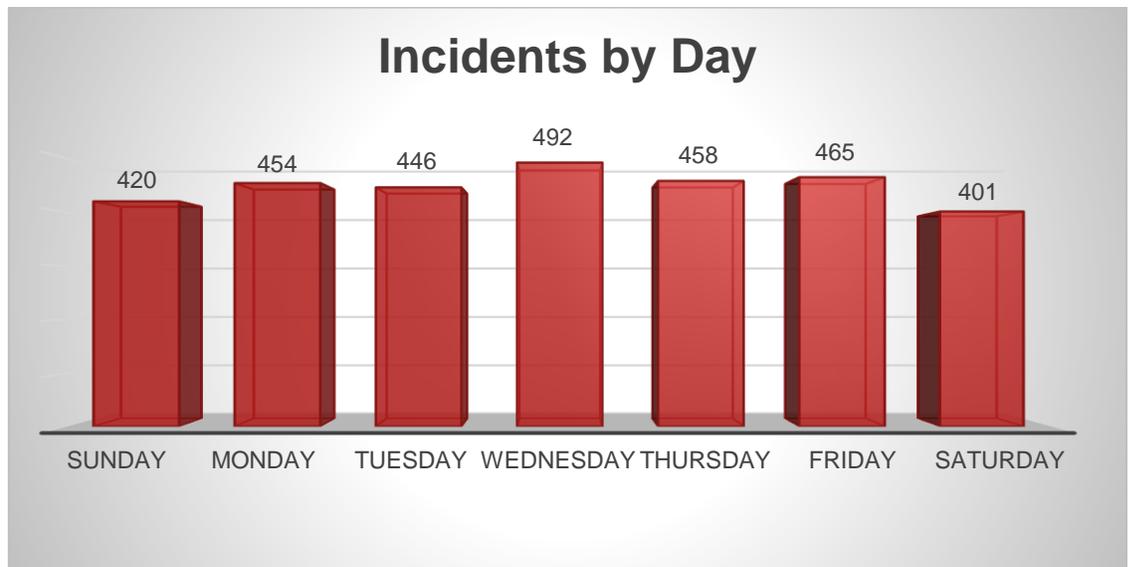

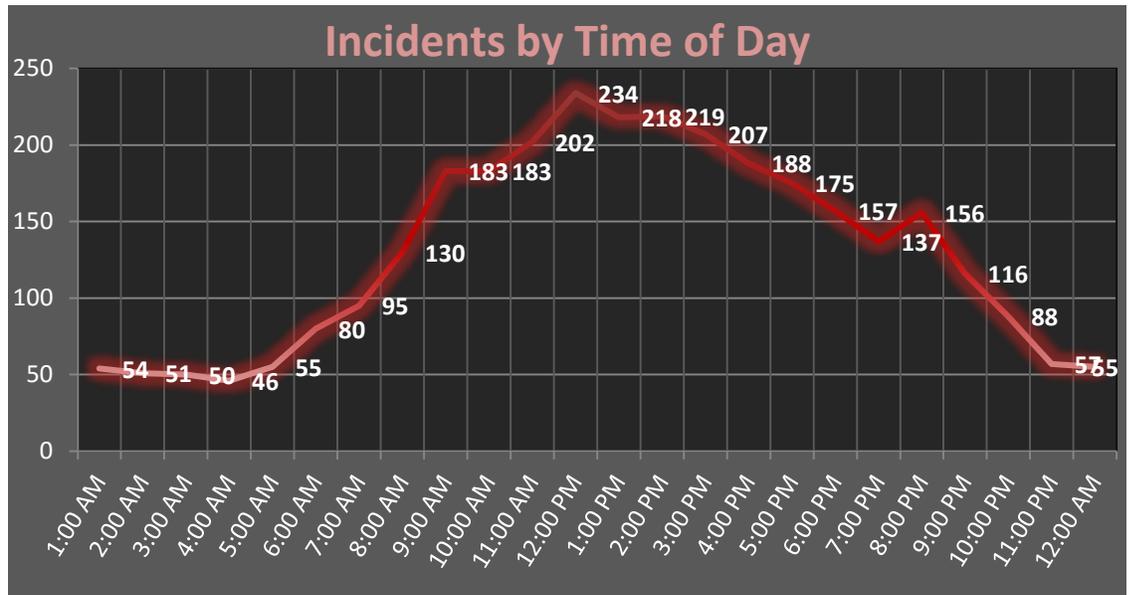

Respectfully Submitted,

Michael P. Healy  
Fire Chief

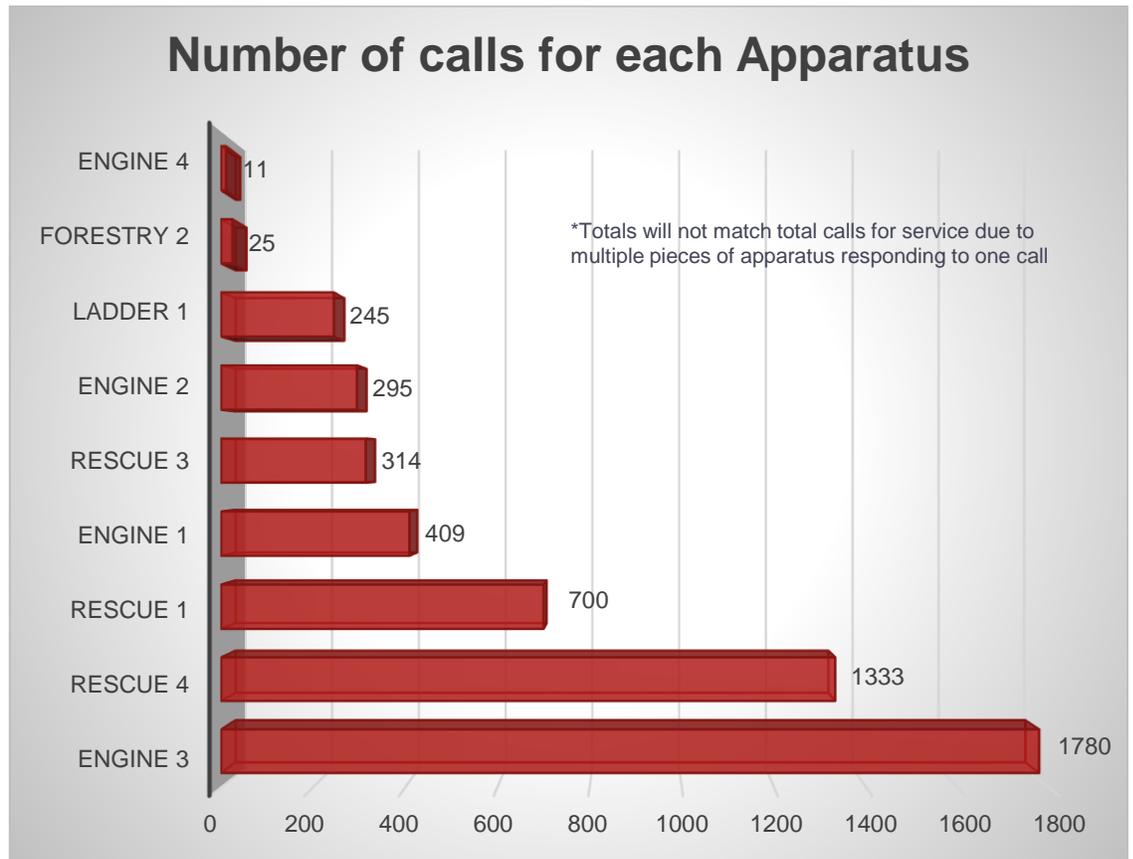

## Fire Department Continued

Fire Department Continued

## Communications Department

The Public Safety Communications Department serves as the primary link between the citizens of the community and the town's emergency services. Although rarely seen, Public Safety Telecommunicators are often the first responders on scene to emergencies within the Town of Seekonk. They provide critical information to emergency personnel and residents during times of crisis. The department operates in a state-of-the-art communications center within the Town's joint public safety building on Taunton Avenue. The department is budgeted for ten (10) employees and is staffed with two (2) full-time dispatchers on all shifts.

The Communications Center is responsible for handling all emergency and non-emergency radio traffic for the Town's Police and Fire Departments. Telecommunicators are also responsible for monitoring the Fire Department's extensive radio-based fire alarm system and the Town's 94 camera video-based security system. This system allows for real-time constant video feeds from the Town's four public schools buildings as well as Town Hall, the DPW, and other municipal locations. Dispatchers also handle all routine incoming calls for service on the Departments' business lines; act as the Town's Public Safety Answering Point (PSAP) for all incoming residential and commercial based 911 calls and serve as the after-hours contact point for other departments such as Public Works and Animal Control.

The last several years have seen an increase in the overall call volumes into the communications center and this past year was no exception. For fiscal year 2016 the Communications Department logged a total of 21,135 incidents. This included events ranging from basic motor vehicle stops, fire alarm activity, house fires, and major police incidents. The numbers represent an increase of 23% over the last fiscal year, and a

## Communications Department Continued

---

45% increase since fiscal year 2013. While some of this can be attributed to better record keeping and performance tracking, a larger portion of this is due to a known rise in call volumes for both the Police and Fire Departments.

With the overall increase in our call volumes, we also continue to see an increase in 9-1-1 calls to the communications center. In FY16 the Seekonk Telecommunicators answered 4,330 9-1-1 calls. To no one's surprise, calls made from cellular devices represented approximately 65% of our incoming 9-1-1 call volume. Given the Town's geography most of these calls had to be transferred to us from Rhode Island as they originated from towers in neighboring East Providence and Pawtucket. It is important for anyone dialing 9-1-1 from a cell phone to realize that when you dial 9-1-1 your calls go to a wireless answering point, and then get routed to the community where the incident is happening.

After a long but justified delay, the State 9-1-1 Department has begun to launch pilot sites for Next-Generation 9-1-1 in the late part of FY16. While Seekonk is not part of the pilot program, we have begun to prepare for how the new system will impact our operations. The cost for this transition is covered by the State. Planning and equipment upgrades have already begun and will continue into FY17. Now that this program is underway it will begin to move rapidly across the Commonwealth and hopefully in my next annual report I will be able to report that our 911 system has been upgraded.

Training continues to be a priority for all members of the department. All dispatchers certified by the Commonwealth are required under state law to meet minimum enhanced 9-1-1 training standards. As such, all Seekonk dispatchers are certified in basic telecommunications, enhanced 9-1-1, and Emergency Medical Dispatch. They also maintain CPR certifications and prior to being released from training complete an in-house department training program. Through the State 9-1-1 Department Training Grant

## **Communications Department Continued**

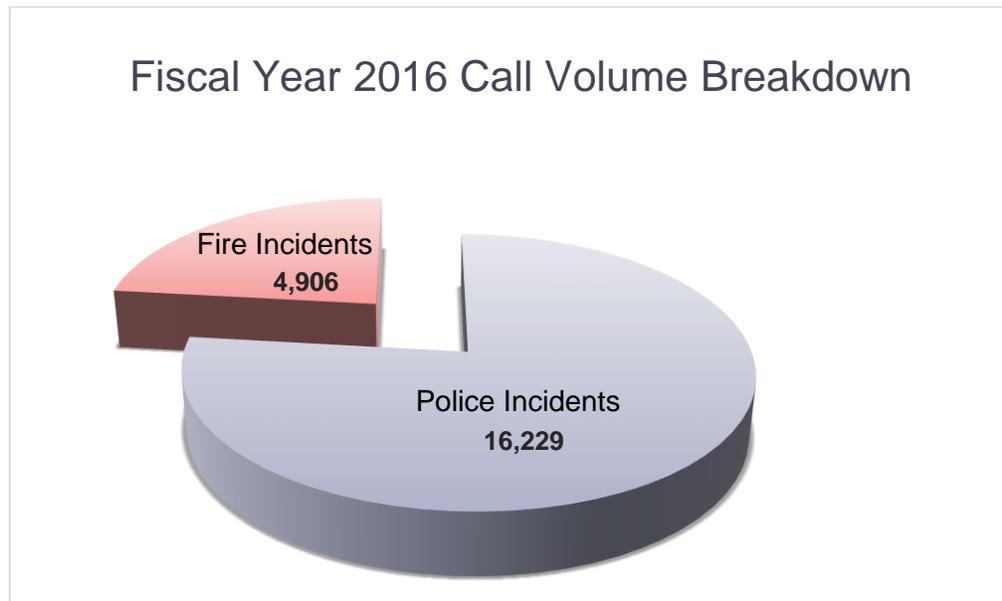

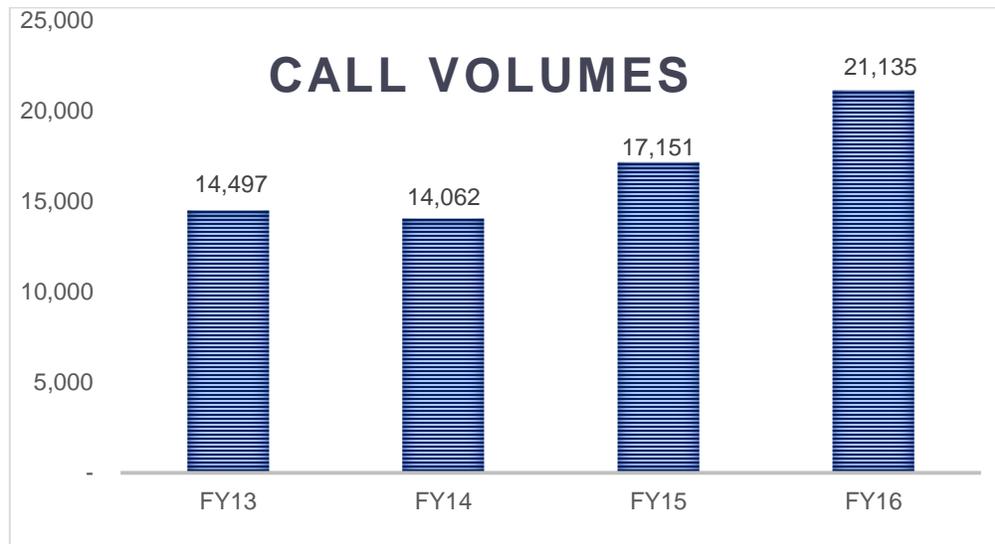

---

we have been able to offset some of the training costs. Highlighted training programs attended in FY16 included presentations from the Denise Amber Lee Foundation dealing with customer service from a victim's perspective, becoming certified as Communications Training Officers, practical lessons learned from critical incidents such as the Boston Marathon bombing and all dispatchers completed re-certification in emergency medical dispatch. Training in emergency communications is rapidly changing and the dispatchers in this community will continue to train to be able to provide the best service possible to all of our callers.

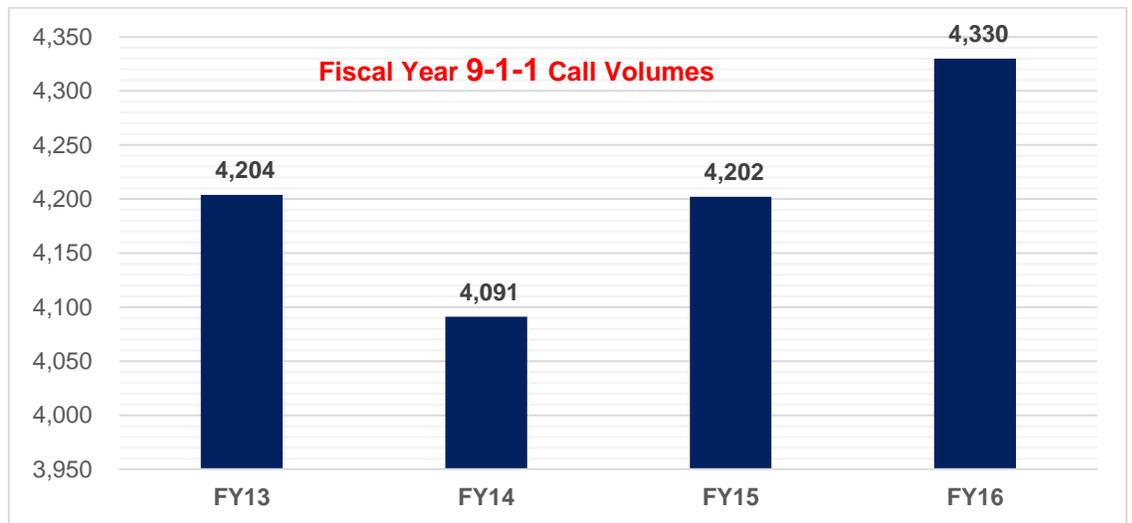

We have continued to work with our radio consultant to perform an in-depth needs assessment for all public safety agencies in town. Our hope in the coming fiscal year is to design, purchase and install a new radio system to serve the Police and Fire Departments. This is an extensive project that will need to address not only the needs of all public safety agencies but also deal with federal regulations surrounding public safety radio spectrum that will mandate the way we operate in the coming years. Our hope is to be able to provide the Public Safety agencies of this community with a radio system that provides them with improved coverage within the borders of Seekonk, addresses critical interoperability with our neighboring communities and gives the citizens the best possible return on their investment.

This agency, like any other in the community, does not function without the dedication of its employees. As I have in the past, I would like to again thank the men and women who serve the Town of Seekonk as professional Telecommunicators. While they will hopefully never need to speak with many of you, those who have need to call for assistance should know they have a group of dedicated professionals waiting to answer their calls for help. It is my honor and privilege to work with them on a daily basis.

## Seekonk Animal Control

---

Ashley O'Connell Assistant Animal Control Officer, Kerry McCabe Assistant Animal Control Officer, and I are still enforcing compliance with dog owners licensing their dogs, so we can efficiently return dogs back to their owners and that they are vaccinated for rabies to protect the safety of the public. It is a continuous effort to get 100% compliance. Telephone calls are made and we often resend license forms to those who are currently not licensed or late and inform them of the law and ask them get their pet licensed in the next week. After all attempts are made and there is still no compliance a fine of \$50 for failure to license is then issued. The owners then have 21 days to pay the fine and license their dog(s). If the fine goes unpaid for more than 21 days, the fine is forwarded to the police department. A court summons will be issued to appear in court. We will issue tickets for failure to license, dog at large, and failure to vaccinate cat and or dog against rabies. We are enforcing the leash law and failure to vaccinate against rabies for the safety of the public and the animals. The owner will get a warning for the first offense and then fined for each additional offense. The fine increases with each offense, per the Town By-law.

We continue to increase the amount of dogs licensed and vaccinated from the previous year. We want to thank the residents of the Town of Seekonk for understanding the importance of licensing their dog and not letting your dog run free. To all the dog owners in town thank you for licensing and vaccinating your dogs and helping us keep you, your dog, and the public safe.

We have seen an increase of complaints with dogs off leash and loose in town. There are many keepers of dogs letting them off on town public walking trails and parks. There is a leash law in these areas. All dogs must be on a leash or obedient under keeper of the dogs command. This is a safety issue to the public.

The department has targeted the feral population with our trap, spay/neuter, vaccinate and release program to keep the number of feral cats down and to limit the spread of disease. All pet cats are also required to be vaccinated by Massachusetts General Law c.140, §145B for rabies.

## Seekonk Animal Control Continued

---

Owners of unvaccinated cats and dogs can be fined \$100. Rabies is a fatal disease. Our quarantine numbers continue to rise for wounds of unknown origin due to mostly unvaccinated cats going outside whom may or may not have been exposed to rabies. These pets live with you and your families and can expose you to the risk of rabies.

Due to recent development in town, there have been increased wildlife calls. Their habitat has dwindled, which forces them to be more visible in residential areas. This has resulted in an increase in calls from concerned residents which has resulted in verifying their health and normal activity along with educating the residents. We also saw an increase in injuries to wildlife and orphans.

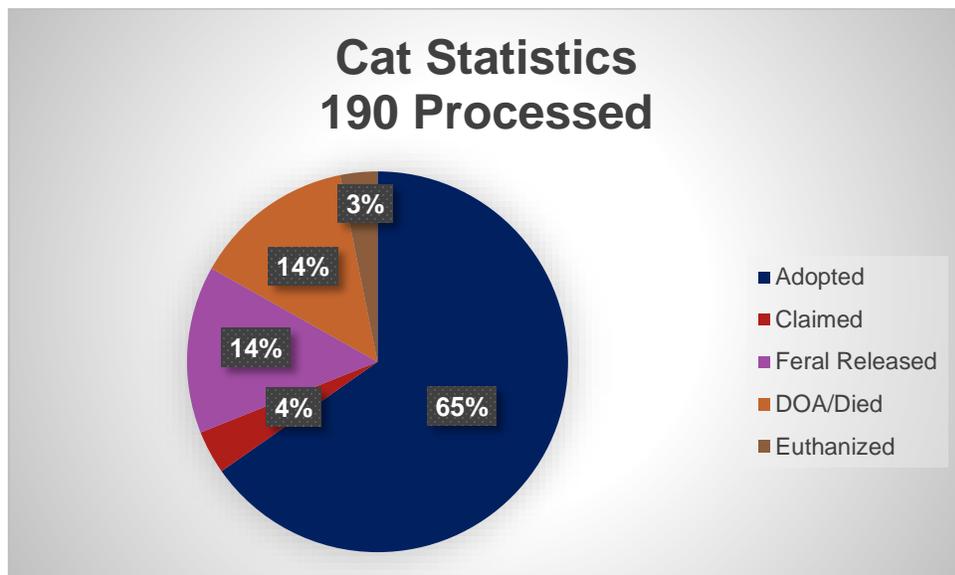

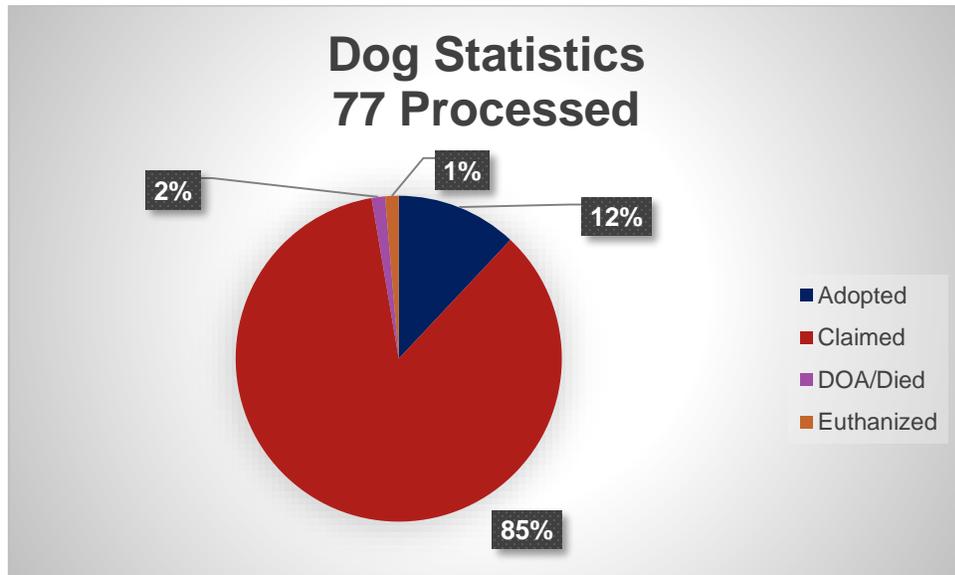

We have had a very stressful year with old employees leaving, new employees starting with us and injuries. As the town continues to grow, I ask the public to be patience with our response times, as there is only one person on a shift to cover seven days a week and emergencies at night.

Save-A-Pet Society has been a continuous bright spot here at the shelter, without their financial, emotional and physical support our shelter and animal control wouldn't be able to provide all that this department does for the public and animals in the town. Thank you to all of Save-A-Pet Society.

Respectfully,

Sharonlyne Hall  
Animal Control Officer

## Seekonk Animal Control Continued

## Department of Public Works

### Mission Statement

It is the goal of the Public Works Department to provide responsive, efficient and cost-effective services to the Town in a manner that safeguards public safety and promotes a clean and healthy environment in the public right-of-way, while protecting public property, providing for existing and future infrastructure needs, and facilitating our residents' needs with quality customer service.

The Public Works Department responds to emergencies and residents' concerns, plans for capital improvements, manages projects, reviews development proposals, inspects construction in the Town's right-of-way and easements, and is responsible for the operations at the Transfer Station. Our Highway division maintains all streets, sidewalks, and stormwater systems, including swales and ditches, detention/retention and infiltration systems in a manner that will extend their useful life and ensure a safe environment for the public. Our Facilities and Grounds division maintains Town buildings and recreational fields. Our Mechanics maintain Police and Town Hall vehicles as well as all Public Works vehicles and construction equipment.

We are committed to assisting our residents and Town officials by understanding their concerns, keeping them informed, assuring quality work, partnering with other departments, and striving to improve our operations.

## Department of Public Works Continued

### Facility and Grounds Maintenance

The Department continues to maintain the Town Hall, the Library, the Public Safety Complex, Banna Fire Station, the COA offices at Pleasant Street School, the Animal Shelter, the Public Works Facility, the old Fire Station on County Street, Old Town Hall, Old School Administration, and buildings, garages and concession stands at three recreational areas. Services provided to these facilities include janitorial, utility management, preventative maintenance, routine and reactive maintenance, capital improvements and emergency repairs.

The DPW assisted with several projects at the new Senior Center. DPW solicited quotes for the Underground Storage Tank (UST) closure, asbestos abatement, and new security lock system. DPW installed all the lock sets and programmed the keys. In addition, DPW attended regular construction meetings.

The Public Works Department continues to complete baseball field maintenance work in the fall. Wet field conditions are typical in the spring from a combination of winter snow melt, thawing of frozen ground and typical wet weather in the spring often causing delays in the maintenance work. Spring is always the busiest time for the ball fields and the leagues are always anxious to get started with practices as early as possible. The maintenance in the fall occurs when the fields are dry and typically not being used much. The work in the fall helps to ensure that the fields are in good condition for opening day.

Our Department solicited quotes for a new sign for Town Hall which is located in the grass circular island in front of the building at the end of Peck Street. The DPW installed the sign and performed landscape improvements in conjunction with the installation of the new sign.

## Department of Public Works Continued

---

The DPW completed landscape work at the Animal Shelter and cleared and maintained the area outside the dog runs.

Another project undertaken by the Department was the construction improvements of the detention pond along the driveway to the Public Safety Complex. The basin was enlarged and was redesigned to include an underdrain system. Provisions were also made to accommodate a trash pump in the event that flooding should occur.

The Seekonk Meadows provides for passive recreational opportunities for residents and visitors. DPW continues to maintain the wildflower meadows and walking paths. The walking paths provide access to Gammino Pond and trails on the adjacent conservation property. DPW oversees all construction activities that take place on the capped landfill area to protect the liner and ensure compliance with DEP regulations.

Public Works continues maintaining the property including the detention basins at the capped landfills on Newman Avenue and Fall River Avenue. These areas are difficult to maintain due to the steep slopes and large detention basins. Specialized equipment is needed to cut the steep slopes, detention basins and water swales.

DPW provides outdoor grounds maintenance at all Town facilities, recreational sites, traffic islands, monuments and along all public ways. Typical sprinkler repairs occur on an annual basis. There were a substantial number of repairs to the various irrigation systems. Public Works personnel continue to maintain 15 baseball fields, 4 soccer fields and several multi-purpose fields. In total, the Department maintains more than 127 acres of municipal property.

## Department of Public Works Continued

---

### Snow and Ice Operations

This season was rather mild with 12 snow events, 4 of which were plowable events. A nice break from the previous record setting year. Each storm brings its own unique set of challenges. DPW crews should be highly commended for the efforts through the winter months.

We continually strive to update our fleet. Last year we only had 2 spare trucks for hired drivers and these spare trucks are prone to break downs and not very reliable. They are also smaller dump style trucks. These vehicles will be replaced with 2 new small trucks and the old trucks are slated to be retired. We have also purchase a new sander which will allow us to allocate one of our older sanders as a spare sander. Ultimately, we will have 3 spare trucks available for hired drivers at the start of the coming season. This is a much better situation than we were in last year. These spare trucks are vital to our operations during any typical winter season. We were very fortunate last year with the mild conditions.

We are in need of sidewalk equipment, especially snow blowers. We have invested in two V-plows for our sidewalk operations which typically do great for storms of 6" or less. Wet snow and accumulations over 6" are better served with snow blower attachments. We rely on a single blower attachment which is old and prone to break downs.

The DPW administrative secretarial staff plays a key role in winter operations. They coordinate with police dispatch and assist in dispatching our plow trucks to clear streets for Police, Fire and Rescue responding to emergency calls. They work extensive hours answering resident's phone calls and relaying information to the resident's on our progress. .

## Department of Public Works Continued

---

### Stormwater Management

Stormwater Management is an unfunded mandate administered by the Environmental Protection Agency (EPA). This mandate was imposed in 2003 and is a major portion of the Department's responsibilities. There were over 20 Massachusetts communities which were fined for non-compliance issues with the EPA mandates. The Superintendent must devote a significant amount of time to review regulations, identify possible solutions, and implement Best Management Practices to remain compliant with the new regulations.

A new National Pollutant Discharge Elimination System (NPDES) Phase II permit was scheduled to be released in 2014 by the EPA. Several public hearings were held so communities could comment on the extent and stricter requirements of the new permit. Recent correspondence from the EPA outlines the new permit requirements that will include more stringent illicit discharge regulations, more specific identification of our drainage conveyance systems and monitoring at outfall locations, to name a few.

Previously, bylaws were developed for each of the pollution prevention control measures. The new bylaws, were voted and approved at Town Meeting and approved by the Attorney General's Office. The new by-laws were fully implemented in September of 2010. Other requirements include Good Housekeeping Measures which led to audits of municipal buildings to identify sources of pollution, and the implementation of corrective measures to eliminate the pollution.

The Department continues an aggressive road and sidewalk sweeping program. All Town roads are swept at least once, while main and secondary roads are swept more frequently. Sweeping operations occur from April through November. This is a key element in keeping our catch basins clean and reduces the amount of material removed during the annual catch basin cleaning process. In addition, this minimizes the amount of sedimentation that enters into drainage conveyance pipes, ponds, streams, wetlands and waterways. A contractor is hired annually to

## Department of Public Works Continued

---

remove sediment and debris from about 1950 catch basins throughout the Town. These tasks are also a requirement of our EPA mandated Stormwater Management Plan.

Mapping of our drainage structures and outfall locations was completed as required by our NPDES permit. We have developed mapping using GPS points which shows a location for each drainage structure and outfall location. Approximately 95% of the drainage structures have been identified. In an effort to curtail the costs of implementing the new stormwater regulations, the SWAC has undertaken several tasks. Catchment mapping is being completed in-house. We are making provisions to provide additional network mapping to include invert elevations, direction of flow, pipe size, material, and condition. The mapping will identify each separate conveyance system that carries run-off to a particular outfall. Every catch basin and manhole must be opened to collect the required data. We put our pilot program to provide these services in-house on hold for this year due to current staffing levels. We will determine an initial study area and evaluate our progress during the next fiscal year.

In addition, the Town is responsible to complete an inventory of all detention basins, stormwater infiltration units, stormwater treatment units, swales, and other drainage system components and to develop strategies for maintenance purposes. An operation and maintenance schedule will be developed by the SWAC.

As part of Public Outreach and Public Involvement we have implemented an Adopt-A-Drain Program. The program rewards residents who agree to adopt key drain locations and commit to keeping the location(s) free of debris during and after storm events on an annual basis. Residents who fulfill the agreement for a period of one year receive a free package of trash bags for their efforts.

## Department of Public Works Continued

### Vehicle and Equipment Maintenance

The Department is responsible for preventative maintenance, setup, proactive and reactive repair of all Animal Control, Tax Assessor, Board of Health, Building Inspector, Town Administrator, and Police Department vehicles and all Public Works vehicles and equipment—totaling over 100 pieces. Many times during the year emergency assistance is also rendered to the Fire Department and School Department.

We have many capital equipment needs that must be addressed due to the age of our equipment. Maintenance costs have escalated steadily as our equipment continues to age. Parts are more expensive and the frequency and severity of breakdowns are more prominent with older equipment. This also impacts our need to outsource repairs rather than complete the repairs in-house.

### Highway Safety Program

A number of factors are considered for highway safety; informational regulatory signs, pavement markings, traffic control devices and guardrails all help guide and control traffic. The Federal Highway Administration has mandated that new 9” street signs with retro-reflective backing and 6” letters be provided to replace older and smaller signs with 4” letters at all street sign locations. At this time we have replaced approximately 95% of all street signs.

Over 45 crosswalks are painted annually prior to the beginning of the school year. We also paint stop lines at key intersections and paint the parking lots at all Town facilities except for the schools. Pavement markings are painted annually along our mains and secondaries in the fall. The Department continues to utilize thermal paint in specified locations. The thermal paint initially costs more to apply, but it is also much more durable and can last for many years. Over 40 miles of lines are painted annually.

## Department of Public Works Continued

The intersection improvement project of the Arcade Avenue/Fall River Avenue/Mill Road intersection is currently under construction. This project should be complete by 2017. The project is being funded by the Federal and State funds through the State Transportation Improvement Program (STIP).

The construction of the new emergency vehicle traffic signal at the intersection of Taunton Avenue at the entrance to the Public Safety Complex has begun and is nearly complete. The new signal has a pre-emption device installed to stop traffic on Taunton Avenue for emergency vehicles exiting the Public Safety Complex. The project also includes a pre-emption system at the intersection of Taunton Avenue at Arcade Ave. Construction is scheduled to be complete by the end of October.

A proposed project for Luther's Corner to add left turn lanes and upgrade the signal for protected left turn movements has been placed on the State Transportation Improvement Program (STIP). The project was fast tracked onto the STIP due to some superb work by the DPW Superintendent with assistance from the Town Engineer, the Town Planner and Conservation Agent. The project is currently at the 25% design and a Design Public Hearing was held by MassDOT at the Town Hall in July. GPI will continue with the design of this project through the PS & E submittals at which point MassDOT will advertise the project for construction. Construction is anticipated to occur in the spring of 2018.

### Tree Removal

The Public Works Department continues to oversee tree removal and tree trimming services by a private contractor. The funding for these services is instrumental in removing tree hazards throughout the Town. Our list of dead trees that pose hazards for vehicles and pedestrians has decreased to a combination of factors.

## Department of Public Works Continued

The Department takes a proactive approach to remove hazards expeditiously. We have an in-house tree trimming program that eliminates many concerns and we have partnered with National Grid on many issues to eliminate hazards and save money.

We continue to target and prioritize tree hazards for removal. If funding is available, we would also like to institute a tree trimming program with our contractor once removal of all dead trees has been completed. The Department responded to many concerns and complaints regarding tree hazards as generated by residents or other Town departments.

National Grid continues to have several crews working to clear trees and limbs surrounding primary wires at various locations throughout the Town. All their work is scheduled and coordinated with the Tree Warden.

### Roadside Maintenance

The DPW is responsible for 110 miles of road with 117 cul-de-sacs and that number continues to grow as new subdivisions are built and accepted. The department takes a proactive approach whenever possible to eliminate road hazards. With just 8 employees available for all road maintenance issues and all recreational concerns, our department is extremely efficient. The DPW superintendent is responsible to evaluate, coordinate, schedule and oversee all associated work performed by the department.

The DPW continues to repair or replace catch basins at various locations throughout the Town. In addition, we maintain and repair culverts. This year the Department had a very interesting project with the Brown Avenue culvert replacement in vicinity of Lowell Street. The culvert collapsed at the end of the 2014/2015 winter causing some serious flooding upland during the spring. We had to wait until July 2015 to perform the replacement when conditions were a bit drier. The upstream end had an old corrugated pipe that collapsed. The downstream end was reinforced concrete pipe. When the road was opened up, we discovered a stone box culvert

## Department of Public Works Continued

---

which was not anticipated. The crew worked through midnight to remove the old culvert, install the new culvert, and get the road back in service before the next morning.

The Public Works Department receives numerous calls from residents and the Police Department relating to brush or trees that are causing sight distance issues at intersections and curves, creating a safety concern for pedestrians along rural routes or sidewalks. These concerns are investigated and mitigated as quickly as possible.

The Public Works Department has implemented an in-house tree trimming program. The Department utilizes a power trimmer to cut low-hanging branches and limbs overhanging the road. Clearing brush and limbs near travel lanes or at intersections has helped with our snow plow operation as well as improve site distance.

Roadside mowing begins in April and continues through October/November. Roadsides are cut back at least twice annually, with many areas being addressed several times out of necessity. The Department also cuts and trims over 40 locations where memorials and islands are located, and over 30 locations around guardrails.

In addition, over 25 miles of sidewalks are maintained. During the spring and summer sidewalks are cleared of weeds and swept. During winter months, sidewalks are cleared of snow following each storm. This is crucial for the safety of children at all school locations.

The Town of Seekonk is responsible for the year-round maintenance of Rte-152 from the Attleboro City line to the East Providence City line. This five mile stretch of road is an extremely difficult challenge for a small department to maintain. This corridor contains nearly 10 miles of sidewalks, a multitude of catch basins and over 3 ½ miles of drainage conveyance systems.

## Department of Public Works Continued

### Solid Waste and Recycling

A new trash program was rolled out in September of 2014. The Town entered into a new 10 year contract with ABC Disposal Inc. of New Bedford. The new program included the distribution of two 65 gallon carts dropped off at each household that participates in the annual trash program. The new system also includes automated collection of the carts. Each household received two 65 gallon carts, one for trash and the other for recycling. Over 10,000 carts were delivered over a 2 week period. The new program will help to eliminate litter and streamline collection services.

A Household Hazardous Waste Day was held on Saturday, April 25, 2015. Free disposal of hazardous waste is available to all Town residents. 1600 gallons of various hazardous products were collected and disposed.

In April the Town also sponsored Earth Day where areas of litter and debris are targeted for cleanup. Over 150 trash bags were filled and collected. Also collected were numerous tires, wood and metal items. Participants included the Boy Scouts, Girl Scouts, a group of high school students and many community volunteers.

The Department of Public Works continues to maintain a waste oil and antifreeze drop off site. Waste oil and antifreeze are accepted at the Public Works garage at no charge to residents. 2,500 gallons of oil, 400 gallons of anti-freeze and over a hundred car batteries were collected. Also collected at no charge to residents are NiCad and Lithium Batteries, mercury thermometers and fluorescent bulbs.

Our Bulky Waste Collection program continues to be successful. One change was made to the curbside bulky waste collection program. Previously, some bulky waste items were picked up on your regular trash collection. Due to the new automated vehicles which cannot accommodate collection of these bulky items, these items are now scheduled for pick-up twice a month; the

## Department of Public Works Continued

second and fourth Wednesday. Metal items and appliances continue to be collected on the third Tuesday of the month. Bulky waste may also be brought to the Transfer Station and Recycling Facility (TARF) with the purchase of a Bulky Waste Pass.

The Transfer Station is open for Bulky Waste disposal the second Saturday of the month for eight months of the year. It is closed in January, February, June and December.

The TARF is open daily on weekdays from 8:00 AM to 3:00 PM. A modification was made this year to include every Saturday from 8:00 AM to noon from April through November for drop-off of yard waste and recycling. It is open the second and fourth Saturday of the month from 8:00 AM to noon the remainder of the year depending on the weather. Curbside collection of yard waste is performed in May, mid-October through the first week of December, and in January.

Typically, annual use of the TARF results in a large pile of brush at the Transfer Station. The brush pile is an accumulation of debris collected by the Public Works Department and brush dropped off by residents. The Department has secured funding for the rental of a tub grinder and screener to process the material. The grindings eventually becomes compost material which is made available for residents free of charge. Excess compost is sold to maintain space for future processing. The funding for the tub grinder was made available from the Sanitation Enterprise Fund.

### Road Improvements - Chapter 90

The Department continues to rely solely on Chapter 90 State Aid funding for all of its road construction and road improvement projects. The Department utilized a portion of Chapter 90 funds to have a road rating inventory completed of its 107 miles of road. The ratings provide a guide for road improvements through our Pavement Management Plan which aids in determining which roads will be targeted for improvements.

## **Department of Public Works Continued**

---

Seekonk receives approximately \$580,000 annually for road improvements, an amount far short of what is necessary to successfully maintain our roads. This limits our ability to provide adequate road improvements to properly maintain all of our roads. We continue to fall behind on road improvements because additional funding is unavailable.

It was estimated in 1997 that to adequately implement and maintain a successful road improvement program it would require \$850,000 annually. By today's standards, that relates to over \$2.6 million in funding annually to sufficiently support the needs of a pavement management program.

We are not alone in this financial situation. To offset the lack of funding needed to provide the best conditions, the Department uses a variety of pavement management strategies to make the most of our Chapter 90 funding. This allows the department to improve more miles of road on an annual basis.

There are many variables used to determine road improvement projects. Main and secondary roads, which experience higher traffic volumes and are subject to vehicles of greater weight capacities, may take preference for repair over residential streets. Cul-de-sacs encompass a large paved area which requires additional costs.

Chapter 90 funding has also been utilized for engineering design services, purchasing land and construction easements for the Central Avenue project, as well as some equipment purchases.

This fiscal year, County Street from just east of Luther's corner to Briarwood Drive was milled and overlaid with new pavement. Ledge road from Arcade Avenue to Jacob Street, North Wheaton and Willard Avenue received a new asphalt rubber stone seal surface. Apple Orchard Lane, Davis Street, Windhamshire Drive and Lake Street from Lincoln St to the Rehoboth town line received a double stone seal wearing surface.

## Department of Public Works Continued

The cost of the projects funded by Chapter 90 for the 2016 construction season (FY 2016) totaled \$560,000 with an additional \$50,000 of funding from the gas company being used towards the improvements on County Street.

In addition, a project that is being funded by Chapter 90 is the engineering design of Luther's Corner, which has been placed on the State Transportation Improvement Program (STIP) for fiscal year 2017. This project was fast tracked to STIP by some very detailed and comprehensive reports submitted to Mass DOT and approved for construction by the Public Works Department. The Luther's Corner project is expected to begin in 2018 at a cost of \$1.5 million dollars. The project is at the 25% design and the Design Public Hearing occurred on June 9th, 2016.

### Superintendent's Overview

The Department continues to be successful in all aspects of public works. Emergencies are responded to promptly, daily tasks are performed successfully, and the Department continues to complete many projects in-house saving taxpayers thousands of dollars in the process. Despite limited resources, this Department continues to be efficient and we effectively complete projects while being proactive whenever possible.

The Department continues to maintain all recreation facilities and has improved field conditions due to the implementation of aerating, over-seeding and fertilization programs. In all the DPW maintains over 127 acres of property.

New development continues to be a contributing factor for additional work for the Public Works Department. As new subdivisions are completed and accepted, road miles are added which impacts the demands of the Department. Once new subdivisions are accepted, the DPW must begin maintaining the infrastructure including roads, closed drainage systems, swales and detention basins. Services provided to these new roads include plowing and treating during winter, sweeping in spring, roadside brush cutting in summer and catch basin cleaning in the fall.

## **Department of Public Works Continued**

---

I want to thank the various volunteers and members of Boards and Commissions who assisted the Public Works Department in any way. Your contributions are greatly appreciated.

The employees of Public Works Department are hardworking diversified group of individuals that performs a variety of tasks in all types of weather. We collectively continue to operate efficiently as a team and strive to perform our work in a professional manner and take pride in our work.

Sincerely,

Dave Cabral  
Superintendent of Public Works

**Conservation Commission**

Richard Wallace  
*Chairman*

Warren Leach  
*Vice Chairman*

Michael Campagnone  
*Member*

Nathan Socha  
*Member*

Jennifer Miller  
*Conservation Agent*

**Conservation Commission**

The Conservation Commission is a seven-member appointed Commission, which administers the Conservation Commission is a seven-member appointed Commission, which administers the Massachusetts Wetlands Protection Act (MGL Chapter 131, Section 40) and the Seekonk General Wetlands Protection Bylaw. Conservation Commissions were created in the 1950's under the Conservation Commission Act and under the provision of the Home Rule Authority. Under this Act, a municipal Conservation Commission is the official agency charged with the protection of a community's natural resources, including but not limited to:

- Public and private water supply
- Groundwater
- Prevention and control of flooding, erosion, and sedimentation
- Prevention of water pollution
- Fisheries and wildlife habitat, including rare and protected species
- Aesthetic, agriculture and recreation values

Within the parameters permitted by these laws, the Commission and staff review development projects to ensure that there are no adverse impacts on wetlands, rivers and streams. The Commission generally meets once a month and conducts public hearings on projects under their jurisdiction. With the addition of the 74.20 acre Lagerquist property this fiscal year, the Commission now manages over 260 acres of conservation lands. The Commission also renders advice to and consults with other Town departments and boards on open space, remediation sites, and conservation issues and is responsible for open space planning and management. In addition, the Commission often works with civic, non-profit and educational groups to encourage environmental education and stewardship.

The Conservation agent and administrative assistant provide staff support to the Conservation Commission and supervise the daily operation of the Conservation office. The work includes, but is not limited to the following:

## Conservation Commission Continued

- counseling the general public and applicants on conservation issues and the requirements of the state and local wetlands protections
- inspecting sites that have Order of Conditions and when requested by the Building Inspector, Board of Health, and Zoning Board of Appeals to determine if the applicants need to file with the Commission
- reviewing all wetland applications and plans, performing field site visits to verify delineation of all wetland and water resource areas
- inspecting permitted projects for compliance
- preparing information for the Conservation Commission public meetings
- maintaining the Commission's records
- investigating and documenting violations
- representing the Town's interests on regional environmental task forces, and acting as liaison between the Conservation Office and other departments and boards.

The Conservation Agent counsels the general public on the administrative practices of the Commission and the Mass. Dept. of Environmental Protection, and provides administrative support to the Commission, including drafting and notarizing Orders of Conditions, Determinations of Applicability, and Enforcement Orders, as well as myriad of other duties related to the daily operations and recordkeeping of the office.

### Staffing

1 full-time Conservation Agent, Jennifer Miller

- Vacant, mid Nov-mid Jun
- Previously held by Bernadette DeBlander, Jul- mid Nov

1 part-time Administrative Assistant, Margie Kimball

## Conservation Commission Continued

Projects Reviewed by the Commission:

Public Hearing (NOI's)	10		Certificates of Compliance	3
Public Meeting (RDA's)	4		Enforcement Orders	3*
Amendments	2		Site Visits (Commission)	20*
Public Hearing (ANRAD)	0		Site Visits (Agent)	80*

*\*Note: Numbers affected by position vacancy from mid-Nov through mid-Jun.*

The above projects generally consist of commercial and industrial projects, proposed subdivisions, single-family houses, additions, garages, pools, decks, utility projects and new septic systems required under Title V. Projects where work is proposed are reviewed by the Agent and the Commission through a Notice of Intent (NOI) Application or a Request of Determination of Applicability (RDA). Wetland and Water Resource delineations are reviewed through an Abbreviated Notice of Resource Area Delineation application or a Request for Determination of Applicability. The Enforcement Orders issued by the Commission were in response to various violations to the local conservation bylaws and/or the state Wetlands Protection Act.

### Fiscal Year 2017 at a Glance

The Conservation Commission continues to strive to preserve the natural resources of Seekonk both within its jurisdictional purview and by encouraging environmental education, land acquisition, and stewardship. Highlights for FY17, will include:

- ✓ Conservation oversight for several commercial projects with active Orders of Conditions, including FedEx building

## Conservation Commission Continued

---

- ✓ Continue to seek compliance on outstanding and active enforcement orders within the Conservation Commission's jurisdiction
- ✓ Site remediation and assessment at 36 Maple Ave, the former Attleboro Dyeworks & Finishing Co.
- ✓ Completion of the Runnins River Connector Trail, offering better trail connectivity and additional passive recreation opportunities to the citizens of Seekonk and its visitors
- ✓ Begin developing an Open Space & Recreation Management Plan focusing on both short-term goals and long-range vision, in conjunction with other Town departments and boards
- ✓ Increase trail visibility to community members and visitors via online trail maps and info, kiosk updates, and regular trail maintenance
- ✓ Encourage staff involvement in quarterly trail/land maintenance projects
- ✓ Completion of several Boy and Girl Scout merit projects, improving Commission lands while offering outreach opportunities to area youth
- ✓ Improve Conservation Commission webpages to make information easier to locate and the filing process more clear
- ✓ Begin scanning and storing electronically all hard copy files while reducing hard copy storage by eliminating duplicate and triplicate documents for closed filings

Respectfully submitted,  
The Conservation Commission

## Board of Health Continued

### Infectious Disease

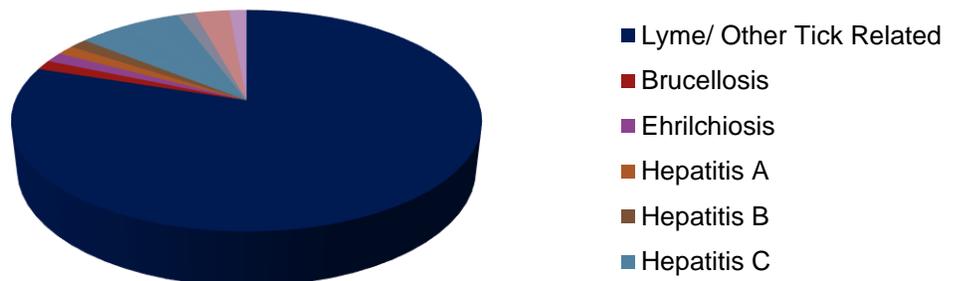

The Board of Health works closely with The Massachusetts Department of Health Epidemiology to monitor emerging infectious disease. Currently there are 68 reportable disease categories that are monitored by our office. During FY '16 we had 72 cases. Out of those cases 56 were tick related diseases. Lyme disease continues to be the highest ranking reportable disease.

It is imperative that the residents of this community continually educate themselves about disease and methods to protect themselves when outdoors. Our office is always available to answer any questions or concerns.

We are also working closely with the state to continuously monitor the mosquito population. We receive weekly reports in regards to the testing of mosquitos for Zika, West Nile Virus, and Eastern Equine Encephalitis.

Our office is diligently working to bring back our community vaccination program. We must have the ability to provide vaccinations at the local level to ensure our resident are protected. We hope to have all the equipment needed in the coming year.

### Reportable Diseases FY 2016

---

### **Household Hazardous Waste Day**

On Saturday April 16th 2016, the Board of Health conducted our annual Hazardous Waste Day. With the assistance of Clean Harbors, we were able to collect \$6,601.52 worth of hazardous waste. The residents who participated in this program are all grateful that this program is offered. The board would like to thank the town for their generosity in allowing us to continue this program. We hope that this program will continue in the future.

### **Emergency Planning**

Our department continues to work at the local and state level to ensure that the Health Department's emergency plans are efficient and up to date. We continue to work on our plans for the town's emergency dispensing sites along with sheltering plans. Although we hope to never use these plans, they are critical for being prepared for anything we may encounter.

### **Health Agent Message**

I would like to take the time to thank the Town along with the Board of Health for allowing me to serve as the new Health Agent. I began this endeavor during the last quarter of this year. It is my pleasure to be able to serve and protect the public health of this community. I look forward to having the ability to make a difference over the coming years.

During this year, there are some very important issues I would like to address. I believe that it is important to bring a customer service approach to our department. We will also begin the process of streamlining our permitting process along with record keeping. I look forward to working with our local community.

Respectfully Submitted,  
Jessica L. Horsman B.S., R.N.  
Health Agent

## Seekonk Veterans Services

The Veterans' Services Officer (VSO) will implement information, experience and knowledge to assist all veterans and their dependents in obtaining all benefits and entitlements through education, communication and technology.

### Objective Statement

The Veterans' Services Department fully understands the problems which confront veterans, widows, widowers, and all eligible dependents. The VSO knows the extent, the meaning and the application of laws that have been passed by Congress in the interests of veterans and their dependents. They also know the rules and regulations adopted by the Department of Veterans Affairs to clarify and implement those laws. The VSO will apply specialized knowledge in the best way suited to the needs of every individual veteran or other beneficiary who comes to the office for assistance.

**James H. LaFlame**  
**Director of Veterans' Services**

### Seekonk Veterans Memorial Park

On the Saturday of Memorial Day Weekend 2016, the Seekonk Veterans Memorial Park was officially dedicated. Guest Speakers included Project Designer Mark Drapeau, Massachusetts State Representative Steven Howitt, Army National Guard Brigadier General Bennett Singer, and US Navy Commander Joe Santos. Highlights included a wreath presentation by four of Seekonk's living World War II Veterans and a floral presentation to family members of Veterans from Seekonk who sacrificed their lives in the name of freedom.

*Our Mission is to provide eligible veterans and their dependents with benefits to which they may be entitled under federal, state and local law, in accordance with established policies and procedures.*

## Seekonk Veterans Services

There are currently 70 more pavers to be installed since the initial engravings. Pavers will continue to be sold by the Friends of The Seekonk Memorial Park. The pavers are 12" x 12", which provide 8 lines of text, 17 characters long. Subsequent times for paver engravings are planned for around Memorial Day and Veterans' Day of each year. Forms are available at Seekonk Town Hall.

### Overview of Fiscal Year 2016

The Veterans Services Department provided medical, financial and fuel assistance for 35 Seekonk veterans and their dependents. This assistance is via the state sponsored benefits under Massachusetts General Law (MGL), Chapter 115.

The office also assisted numerous veterans with medical claims through the Department of Veterans Affairs, helped to secure funeral funds, and ensured veterans received all applicable bonuses to which they were entitled.

All Seekonk veterans that have questions pertaining to their benefits are encouraged to call the undersigned at 508-336-2940 or stop by the Veterans' Services Office located near the front entrance of Seekonk Town Hall.

Respectfully Submitted,

James H. LaFlame  
Director of Veterans' Services

**Seekonk Human Services**

Hooray for a new Senior Center! On Sunday, June 26, 2016 the grand opening for the Seekonk Senior Center took place. Town Administrator Shawn E. Cadime, State Representative Steven Howitt, and Senior Center Building Committee Chairperson David Bowden thanked the residents of Seekonk, Brewster Thornton Architecture Group and Northern Contracting for their time and effort to help make the Senior Center possible. Mr. Howitt presented the Senior Center Building Committee with awards for amount of time and work they spent putting together the Senior Center.

Bernadette Huck, Executive Director for the past eleven years finally obtained her long time goal of seeing Seekonk Human Services in their own accessible building. This building will provide our citizens with the privacy and professionalism that they need. It will also allow us to provide educational, physical fitness and recreational programs that will be a great asset to our citizens. This was possible through the help of the private, public and individuals who have brought our long sort after dream to fruition.

**Demographics and Strategic Plan**

A recent AARP housing study reports that an overwhelming number of elders want to stay in their own homes as they age. One of the goals of Seekonk Human Services is to identify the needs of our elders and link them with services that will enable them

*The mission of Seekonk Human Services is to ensure the well-being of Seekonk's older population and residents of any age who are in need of social services due to economic hardship, health issues, family circumstances, or personal loss. We recognize the innate worth of every person in our community and strive to respect their dignity regardless of status.*

## **Seekonk Human Services Continued**

to live independently in their own homes and stay connected to the community. The services and information we offer can often prevent a crisis situation. In addition, we help to ensure quality of life for seniors by providing much-needed opportunities for social interaction and programs of particular interest to older population.

As Baby Boomers reach retirement age in our community and in the country as a whole, we are facing major demographic shifts. The Southern Regional Planning and Development District (SRPEDD) projects that if current trends continue, the region's over 55 population will grow by 75% between 2000 and 2030.

According to the 2010 U.S. Census, Seekonk that year had a population of 13,722. Of that number, 30.6% were over the age of 55, the age at which Seekonk Human Services begins providing senior services. Census data indicate that Seekonk's 65 and older population was 14.9% of the total population, and 4% were over the age of 80. Seekonk's 65 and older population is higher than the national average of 13%. In 2000, 12.4% of the U.S. population was 65 and older; Seekonk's 65 and older population was 13.5%. By 2030, nearly one in four Seekonk residents will be over the age of 65.

The Town of Seekonk Census as of June 30, 2016 shows a senior population of ages 55+ of 3,672 and seniors 60+ of 2,441.

Meanwhile, the economic recession that began in 2008 affected both seniors and younger families, increasing unemployment, mortgage foreclosures and evictions, losses from investments, need for fuel assistance and food stamps, and difficulties meeting medical expenses. Although unemployment and economic growth have improved, seniors on fixed incomes struggle to find affordable and suitable health

*We seek to maintain and enhance the quality of life of our elder citizens by providing opportunities for social interaction, physical activity, intellectual stimulation, community service, and health clinics.*

## **Seekonk Human Services Continued**

care. Seekonk continues to lack affordable housing as well as assisted living or continuing care options for its senior citizens. Human Services provides social services to Seekonk residents regardless of age. The Council on Aging provides social services, information and referral, and social and educational programs to those 55 and over.

The Human Services Board adopted a Strategic Plan in January 2011 that was revised in August of that year. This forward-looking document anticipates the expanded and changing need for programming to accommodate the aging Baby Boom population as well as expanded opportunities for programming in the new Senior Center. The Department has identified goals, objectives, and action plans in a variety of areas, including advocacy, health and wellness, transportation, outreach, recreation and social, volunteerism, housing, food service, and education.

### **Social Services**

Seekonk Human Services administers the following programs to all Seekonk residents who qualify: fuel assistance through Citizens for Citizens, Friends of Friends Emergency Assistance, Salvation Army and The Good Neighbor Program; food stamps (SNAP) and Doorways Food Pantry intakes and applications; health insurance programs (SHINE); blood pressure clinics and health care coordination.

We offer evening hours by appointment. Our Outreach Staff is available to assist residents with Fuel Assistance applications, insurance questions, information and referral for services. The Senior Employment Program is funded through Citizens for Citizens.

*We help clients of all ages who need assistance with food, clothing, housing, health care, transportation, legal or tax services directly or by introducing them to a network of federal, state, and local support services.*

## **Seekonk Human Services Continued**

---

### Council on Aging

We are pleased that even with the challenge of limited funds we have been able to increase the number of educational and social programs. The Men's Breakfast is a monthly breakfast meeting for men. We have had a number of speakers on men's interests and health issues. We continue to offer luncheon seminars on estate planning, health, nutrition, changes in health insurance and other topics. We are delighted with the interest in and support for our preventative health care programs, including aerobics and weight training.

We know that community partnerships are what enable us to take care of the needs of our citizens. We rely heavily on the benevolence we receive from Friends of Friends and Doorways Food Pantry. The dedicated volunteers from Friends raise the funds to provide emergency assistance to senior citizens and families. Doorways Food Pantry's continues to attract support from churches, businesses and individuals committed to feeding those in need.

Newman YMCA has offered Seekonk seniors gentle yoga and arthritis water exercise. Seekonk Total Fitness has partnered with Seekonk Human Services to offer senior exercise three times a week.

GATRA provides elder transportation to doctors' appointments or shopping, with a travel companion, if necessary.

*We try to offer effective, quality services that respond to community needs, promote continuous improvement of staff skills and performance, encourage an environment of trust and honesty, and provide services that are accessible, fair, and equitable.*

## **Seekonk Human Services Continued**

A Fire Safety Program is offered by the Seekonk Fire Department, working together with the Fire Marshal's Office and the Department of Health to distribute free smoke and carbon monoxide detectors (depending on availability) and reflective street number markers.

TRIAD was established in 1998 and joined with the Bristol County Sheriff's Department in 2004. TRIAD holds meetings for seniors on the fourth Wednesday of the month.

### **Property Tax Work-Off Program**

Residents over 60 may reduce their property taxes by up to \$750 per year by providing services for the Town of Seekonk. In 2015, there were 30 applicants. Ten positions were filled, with assignments to Human Services, the Library, and Animal Shelter.

### **Circuit Breaker Tax Credit**

Seekonk senior citizens received a total of \$22,324 in tax credits for the year of 2015 a decrease of \$2,747 from 2014. We advertise the availability of this credit on TV9, our website and in our monthly newsletter.

### **Art Therapy**

These classes continue into their 24th year. The seniors who have participated in this program have become supportive of each other and have also produced lovely art work that has been exhibited at the Attleboro Museum Community Gallery or at the Senior Center.

## Seekonk Human Services Continued

### Helping Hands

Human Services Director Bernie Huck continues to host a television show on TV9 with speakers on topics of interest to seniors.

### Seekonk Community Garden

The Seekonk Community Garden is in its 9th year. The Seekonk Housing Authority owns the land on Chappell Street where the garden is located. There are 18 plots in total, but several are rather shady. If there were a source of water, there would probably be more Commons members, but it is hard for older folks and the mildly disabled to carry water.

### Pasta Fest

Seekonk Non-Profit Coalition raised \$2,074 by hosting the 8th Annual Food for Fuel Pasta Fest at the Seekonk High School. Proceeds benefited residents of Seekonk in need of heating assistance. Local businesses made donations that were used in the raffle.

### Thanksgiving 2015

Over one hundred meals and baskets were requested and fulfilled. Outback Steakhouse in Seekonk cooked meals on Thanksgiving morning to be brought to shut-ins. Friends of Friends, Community Services, Inc., Rod and Gun Club, and Mt. Carmel St. Vincent de Paul donated baskets to those in need.

## Seekonk Human Services Continued

### Christmas 2015

Donations were received from Bay State Street Machines, Memorial Baptist Church, Wal-Mart, and private individuals. Toys for Teenagers donated, an anonymous family made turkey and ham dinners and delivered them, Martin School 3rd graders donated gifts for the seniors.

### Seekonk Residents Served in Fiscal Year 2016

Fuel Assistance Application	282 households, totaling \$193,969
Meals on Wheels	72 seniors, 7,469 meals
Emergency Assistance (Town Utility Assistance, SVdP, Friends of Friends, and Salvation Army)	27 seniors and families, \$6,000
Good Neighborhood Fund	10 seniors and families
Medical and Prescription Assistance	1,754 seniors and families
Information and Referral (Phone Calls)	12,901
Support Services	150 seniors and families
Newsletter	15,510 seniors a year
Outreach/Advocacy	4,212 seniors and families
Wellness	698 seniors and adults
Recreational/Socialization	930 seniors and adults
Non Elder Services	856 non-elders
Professional Services	89 Seniors

## Seekonk Human Services Continued

---

### Our Faithful Supporters

Friends of Friends, Community Services Inc., The Salvation Army, and St. Vincent de Paul at Mount Carmel and Our Lady Queen Martyr continue to lend their support financially to those in Seekonk that need help. This is done through the Outreach Department on a confidential basis. In addition, Newman YMCA and Seekonk Total Fitness have done food drives for the holiday season. A core group of 18 volunteers comes to the Council each month to help get the newsletters mailed.

As Executive Director of Seekonk Human Services, I would like to express my sincere appreciation to all the members of our staff for their continued dedication to providing quality service to all Seekonk residents: Assistant Director Adriana DosSantos; Senior Secretary Ashley Cartwright; Community Liaison Karen Stutz; Outreach Worker Veronica Brickley; and Junior Clerk Kimberly Mallon. Our Senior Aide Sharon Bettencourt has been a tremendous help to all our staff.

We would like to extend our deepest appreciation to all those who have supported Seekonk Human Services over the years. It would be impossible for us to provide all of the services we do without the help of such wonderful volunteers.

Your contributions could never be repaid. On behalf of our Board of Directors, the staff and all the seniors, I extend a heartfelt "Thank You" for all you have done.

We want to take this opportunity to thank the Seekonk Police and Fire departments for their dedication and service to those in need. The Department of Public Works

## Seekonk Human Services Continued

---

continues its commitment by providing manpower support and support for picking up donations, especially with the holiday food baskets. We want to thank all the individuals, charitable organizations and local businesses that give their financial support and personal dedication. If we have omitted anyone, we apologize. Without you, we would not be able to serve the citizens of Seekonk.

I would like to thank the 2015-2016 Board of Directors (Christine Allen, Irene Andrews, Guy Boulay, Anita Gendron, Victoria Kinniburgh, Anne Libby, and Beverly Della Grotta) for their support of Seekonk Human Services. Their dedication has never faltered and these special people should be applauded for their efforts. Our Town Administrator Shawn E. Cadime and our Honorable Board of Selectmen (Nelson Almeida, David Parker, Gary Sagar, David Veira and David Andrade) have assured me that the seniors of our community are very much on their minds. I would also like to extend a very special thanks to all the boards, committees, departments and organizations and businesses that continue to assist us. Our commitment to work together has served us well and is what will assure our success for years to come.

Sincerely yours,

Bernadette M. Huck  
Director of Seekonk Human Services

**Seekonk Public Library**

The Seekonk Public Library provides high quality library service from its facility at 410 Newman Avenue. Each year the library takes up the challenge to respond to the increasing demand for service by Seekonk residents.

Through careful management and creative application of public and private resources, the library met and in many cases exceeded, the expectations of its users in fiscal year 2016.

This task has become increasingly difficult, however, as the library struggles to offer services from a deteriorating building with insufficient space. Library staff members are working closely with the Library Facilities Study Committee to develop a feasible plan to modernize a building constructed in 1978. The facilities study is the first step in a multi-year process that we hope will result in the Town obtaining millions of dollars in Library Construction Grant funds from the state to help construct this new facility.

The library improved access into the building last fiscal year by replacing the ill-fitting entry doors with more energy efficient, automatic doors. The library installed the doors using a combination of state grants and local funds. Although the town will need to do much more to comply with current codes regarding accessibility, the new doors are a major step forward to make the library easier to use for everyone.

The Seekonk Meadows, the passive recreation area adjacent to the library, began its fifth full year of operation. Thousands of people visited the Seekonk Meadows in fiscal year 2016 to walk its pathways, appreciate nature or to attend the concerts and other

## Seekonk Public Library Continued

events produced by the library. The completion of the Seekonk Veterans Memorial in May enhances further the role of the site as a community center. The Seekonk Meadows Management Committee continues to oversee the use and on-going development of the Meadows. The Board of Trustees thanks them for their efforts.

The Seekonk Public Library is one of the few public libraries to have a special area dedicated to promoting innovative and creative uses of new technology. The Innovation Center has a variety of high tech tools, including a 3-D printer and higher end workstations. The Innovation Center supports many of the S.T.E.M (science, technology, engineering and mathematics) programs produced by the library.

Seekonk Public Library remains one of the most highly used town services. The library was open a total of 2,967 hours last fiscal year. With few exceptions, the library was able to maintain its six day, sixty-hour a week schedule. People visited the library 115,360 times last fiscal year, which averages to 2,218 people per week. 5,514

### One of the MOST USED of our TOWN SERVICES

#### Seekonk Public Library in FY 2016

- Total hours open: 2,967
- Total visits: 115,360
- People using cards: 5,514
- New users getting cards: 815
- Items borrowed: 275,896
- Reference questions: 12,471
- Times the library meeting room was used by other groups: 547
- Total attendance at children & family programs: 8,767
- Total attendance at adult & teen programs: 1,535

## **Seekonk Public Library Continued**

---

individuals used their Seekonk library cards in fiscal year 2016. The library also issued 815 new library cards last year, which was an increase of nine percent over the previous year.

The library collected a total of \$17,142 in late fees and collected \$13,215 in other various fees. These revenues are used either to support on-going services such as the public printers and copier or is deposited into the General Fund of the town.

The primary attraction of the library is its diverse and interesting collection of materials. The library offers users a choice from among 92,870 items. This includes materials in the physical collection as well as electronic materials available on-line. Books and other printed materials still account for approximately two thirds of the physical collection. Electronic resources (CDs, DVDs, electronic books) account for the remaining third. In 2016, the library continued to build its collection of Blu-Ray video discs and electronic games. The library also increased the availability of downloadable electronic books, audio-books, magazines and musical recordings through services such as OverDrive, Axis 360, Flipster and Freegal. These electronic resources are part of an overall effort to develop a collection reflective of the diverse needs and interests of Seekonk residents.

One indication of how successful these efforts have been is that Seekonk Public Library consistently has one of the highest per capita lending rates in the state. The library circulated 275,896 items last fiscal year. Children's materials accounted for approximately thirty percent of this total. This total includes over ten thousand electronic items that people downloaded either at the library or from home.

## Seekonk Public Library Continued

Many Seekonk residents took advantage of the library's membership in the statewide library network to borrow over thirty-eight thousand items from other libraries. The availability of these other items is a major benefit of participation in the Massachusetts Library Network. Seekonk Public Library also lent almost thirty-six thousand items to other libraries. The Massachusetts library grant formula compensates local libraries for these loans to users in other communities. Last year, the Town of Seekonk received over twenty-four thousand dollars in state aid.

**S.T.E.M Program Rocket**

The many programs and classes offered by the library were another major reason that people visited last fiscal year. The library offered eighty-eight adult and teen programs. These programs and classes had a combined total attendance of 1,535. The library also offered three hundred and ninety-seven programs for children and families. These programs had a total attendance of 8,767. About four hundred children participated in the Summer Reading Program. This popular program helps to keep students reading during the summer months. Various groups and organizations used the library's main meeting room 547 times last year. All of these programs support the library's larger mission to promote life-long learning, childhood literacy, personal health and wellbeing, and informed public discourse.

### **Smart Memorial Trust**

*In October 1985, Town Meeting established the Smart Memorial Trust in the Town By-laws. The purpose of the trust is "to support the goals of the Seekonk Public Library to provide the widest possible range of informational, educational, and recreational services to all individuals and groups in the community". The members of the Board of Library Trustees serve as trustees for the Smart Memorial Trust. The Town holds and manages the trust funds. The balance of the Smart Memorial Trust as of June 30, 2016 was \$38,818.66. The library did not expend any money from the trust in fiscal year 2016. The total income of the trust last year was \$639.28.*

## **Seekonk Public Library Continued**

The library has a total staff of twenty people. Eight are full-time employees and six of these are professional librarians. Marge Bradley, the Supervisor of Customer Services retired in June after twenty-five years of service. Mary Ellen Siniak, the Senior Librarian in Youth Services also retired after twenty years of service. On behalf of the thousands of users they served, the trustees thank them for their dedicated service.

All of the library staff members take great pride in the personal services they provide. Last year, the library staff members provided reference assistance and individual instruction to users of all ages a total of 12,471 times. Many of these questions involved using the wide variety of electronic resources available through the library. The staff also devotes a great deal of time to assisting the people who connect their personal devices to the free Wi-Fi service at the library as well as the users of the library's thirty-two public computers. Approximately 5,400 personal devices logged on the library's wireless network last year. All of this assistance and instruction is part of a larger effort to help people become knowledgeable users and consumers of new information technology.

The library could not be the popular and effective service it is without the support of the community. The library is fortunate to have the support of many individual volunteers. Forty-six volunteers worked at the library last year and they contributed 3,248 hours of service. Two non-profit organizations, the Friends of the Seekonk Public Library and the Seekonk Library Trust, provide additional support to the library. Money raised by the Friends supplements the basic services paid for with tax dollars. These popular additional services include the museum passes, family night programs,

## Seekonk Public Library Continued

and the summer concert series. In fiscal year 2016, the Friends of the Library donated approximately \$19,000 for these and other services. The Seekonk Library Trust exists to solicit and accept donations from private sources for library purposes. The focus of the Library Trust is on addressing long-term needs of the library. Both organizations are important parts of the public and private partnership that provides quality library service to the people of Seekonk. The Board of Trustees wishes to thank both organizations on behalf of all library users for their help in making last fiscal year a truly exceptional year.

**Bill Harley Concert on the Meadows**

In conclusion, a critical ingredient to the library's success is hearing from you about the job we are doing. We welcome your comments, complaints, and recommendations. For your convenience, the library has setup an email account, [trustees@seekonkpl.org](mailto:trustees@seekonkpl.org) for you to contact the Board of Library Trustees.

Respectfully Submitted,

BOARD OF LIBRARY TRUSTEES

**Parks and  
Recreation  
Committee**

Jason Adamonis  
*Chairman*

Neal Rapp  
*Vice Chairman*

Erica Harris-Grimes  
*Secretary*

Jim Troiano  
*Member*

John Pozzi, Jr.  
*Director of Parks and  
Recreation*

**Seekonk Parks and Receptions**

Fiscal Year 2016 was a year of transition and change for Parks and Recreation. The board voted to re-organize their membership: Jason Adamonis, Chairman; Neal Rapp, Vice Chairman; Erica Harris-Grimes, Secretary; James Troiano, Member. The board currently has one open position that it is looking to fill. We encourage anyone who is interested to please fill out a talent bank form and join us.

In the spring of 2016, John Pozzi, Jr, was hired as Parks and Recreation Director.

Working with the Seekonk High School Track Club, we held a Columbus Day Youth Race. Students from Martin Elementary, Aitken Elementary, Hurley Middle School participated in a cross-country race at the Seekonk High School.

The Ski Program continues to be a great success. We had over 90 youth participants and over 100 involved with chaperones. We skied Wachusett, Loon and Mt. Snow. Great times were had by all.

The new Seekonk Youth Lacrosse League has been such a success that it looks like it will be feeding new competitive lacrosse teams at both our middle school and high school in the near future.

*Our mission is to provide inspiration and recreation opportunities for the Town of Seekonk residents through creation and maintenance of high quality programs, facilities, and community special events. By dedication and developing diverse services and programs that promote citizen involvement and strong sense of community. With this being said Parks and Recreation will strive to increase the social, cultural, and physical well-being of its residents and generations to come.*

## **Parks and Recreation Continued**

---

The Parks and Recreation Committee meet at the town hall on the second Tuesday of every month starting at 6:30 pm. Anyone interested in seeing what we do or has an idea for us is encouraged to join us at a meeting. We have an open seat on the board and maybe you could help fill that spot. If you cannot make a meeting but would like to share your thoughts or ideas, you can check us out at [www.seekonkrecreation.com](http://www.seekonkrecreation.com).

Seekonk Parks and Recreation Committee

## **Elderly and Disabled Taxation Aid Fund**

---

The Town of Seekonk's Elderly and Disabled Taxation Aid Fund Committee was organized according to Massachusetts General Law Chapter 60, Section 3D and approved at Town Meeting on November 27, 2006.

The Elderly and Disabled Taxation Aid Fund was established to assist elderly and/or disabled town residents to help defray the cost of their property taxes. The fund consists totally of donations received from generous Seekonk residents, businesses, community groups, churches, and friends who are able to help those in need. All donations received were distributed in accordance with established guidelines by Seekonk's Elderly and Disabled Taxation Aid Fund Committee. Applicants must meet certain criteria, including being income eligible.

During Fiscal Year 2016, several taxpayers met the requirements, and awards totaling \$3,900 were made directly to the recipients' real estate tax bills.

The balance on June 30, 2016 was \$4,390.34.

**Library Facilities Study Committee**

Since the November 2013 town meeting, the Library Facilities Study Committee has been tasked with “examining the library facility needs of the Town and developing appropriate designs, schematics, specifications, cost estimates and any other documentation required to construct and furnish such facilities, or to take any other actions related thereto.” The LFSC has been pursuing this goal through the active engagement of industry professionals and input from the Seekonk Community in order to prepare a thorough, well-conceived library improvement plan that local voters may consider for funding.

The LFSC had a very busy and productive year. In July of 2015, the committee selected the firm of STV/DPM to be the Owners Project Manager for the study and grant writing phase of the project. In November of 2015 The LFSC interviewed four design / architect firms and ultimately selected Tappé Architects to assist in the design and development of the library improvement plan.

An early decision of the Library Facilities Study Committee was to determine whether to maintain the existing building as is, renovate the existing building or build a new facility. The committee assessed the program needs and facility requirement size estimates as described in the Library Building Program and recommendations from the Massachusetts Board of Library Commissioners (MBLC). The condition of the existing building was assessed by third party experts and feedback was collected from the community through multiple surveys about the current library and future needs of the library. Maintaining the existing building was ruled out based on the program requirements of approximately 24,000 square feet vs the current size of 14,800 square feet and the deferred maintenance investment required.

## **Library Facilities Study Committee**

---

The next major task for the LFSC was to determine if there were alternate buildings or locations available to the Town that would be better suited to an improved library facility. This alternatives analysis is a required step in the Massachusetts Board of Library Commissioners grant application process. Using criteria from the building program, the committee, in conjunction with the design team, assessed available public and industrial land available in Seekonk. The only additional site that meet site criteria was the Pleasant Street School. Tappé Architects verified the architectural conditions for the Pleasant St. School and the current library and generated a preliminary “Building Information Model” (BIM). Through this process it was determined that the Pleasant St. School building was unsuitable for reuse or renovation as a library facility.

After conducting a thorough analysis of the land near the Pleasant St. School and the current Newman Ave site, the committee voted to maintain the library at the present location. This decision was influenced in large part by the feeling of a “Town Center” that has grown in recent years around the Newman Ave site. The opening and increased use of the Seekonk Meadows at this site and the recent construction and dedication of the Seekonk Veteran’s Memorial on the Newman Ave site have contributed to the strong sense of community center that had previously been lacking in our town. The LFSC feels that it is important to continue to build on that growing sense of a “Town Center” and to collaborate with the town to bring more citizens and activities to the Newman Avenue site.

Having agreed on a site a decision was made to “build new” vs “renovate the existing” building. The scale of requirements associated with a renovation essentially saved the slab only.

## **Library Facilities Study Committee**

---

In building new – we will look to build up from the existing slab, but create a facility that will best meet the evolving needs of the community.

In January we began our campaign of community outreach. We started with an on-line survey open to all residents and library users as well as some face to face high school and middle school focus groups. The LFSC and design team then conducted a series of four Community Meetings from Feb – May where we presented the building program and needs assessment, survey results, the site analysis, initial building design options and finally offered three design concepts to the community for their comment and review.

These three preliminary design options were further evaluated by the committee and a final design option was chosen. The architects will use this design to move forward with the basic schematic design and cost estimation for the overall building project. The schematic design phase is continuing and includes collaboration with other professionals to assist in other aspects of the project. These include site analysis, traffic pattern analysis and landscape design to encourage a connection of the proposed improved building with the surrounding landscape of the Meadows. The committee, with the help of the design team is also looking into other factors such as “green” building design, technology integration and maintaining consistency with the building program and needs assessment.

The current building design as well as contact information, meeting minutes, schedules and agendas are posted on the Library Facility Study Committee website at <http://www.seekonkpl.org/library-facilities-committee/>. We also welcome your

## **Library Facilities Study Committee**

attendance and input at our committee meetings as well as continuing community outreach events in the years ahead.

In conclusion, the Library Facilities Study Committee is working towards the immediate goal of preparing a grant submittal for the Mass Board of Library Commissioners in Jan of 2017. Additionally we look forward to continuing to build community support and enthusiasm for the improved library facilities that are needed at our Seekonk Public Library.

Respectfully Submitted,  
Library Facilities Study Committee

## Community Preservation Committee

---

The Committee met 6 times during the year. Minutes are available in the Town Clerk's Office and online on the Town website.

During this period, the Committee voted to forward two projects to Town Meetings which were both approved by a large majority.

Approved at Town Meeting November 30, 2015

\$95,000 to complete trail building of the Seaconke Area Trail system  
\$60,000 already committed through a grant from the Seekonk Land Trust.

Approved May 16, 2016

\$312,000 for purchase of the Young Farm, located between Chestnut and Elm Streets

At this point, all of our projects except the two adopted this year are complete.

The Committee continues to enjoy town wide support for projects brought to Town Meeting, but we will expand our efforts to get applications across a broader spectrum of the CPC mandated areas: Historic preservation, Affordable Community Housing and Recreation. We are happy to receive regular applications for Open space projects which continue to be widely supported by Seekonk residents.

Seekonk Public Schools serve as a model for educational innovation as a result of using best practice instructional strategies, an integrated K-12 curriculum and a variety of assessments in a technology-rich environment. Students are able to access multiple pathways that encourage and prepare them to think critically and to use creative problem-solving. We are a community united in the belief that it is our fiscal and moral responsibility to provide outstanding educational opportunities and facilities for all of our students. Our graduates are able to set goals, make responsible choices, and appreciate diversity in order to live their lives with a sense of purpose and face the challenges of the future.

**Superintendent of Schools**

### Strategic Plan 2015-16

During the 2015-16 school year, the Seekonk School District continued to work toward updating the strategic plan. Approved in February 2007, the current plan contains the following goals: (1) Curriculum, Instruction, and Assessment, (2) District and School Organization, (3) Community Relations and Partnerships, (4) District and School Resources, and (5) Technology.

Over the last few years, the Logic Model, a bulleted, action-based plan, provided the foundation for a more conventional and comprehensive strategic plan. This year, three models of strategic planning suitable for a school district were investigated. It

## Seekonk Public Schools Continued

appears that some combination of all three models could best meet our needs: conventional, issues-based and operational.

*The mission statement of the Seekonk Public Schools is to inspire all students to acquire the skill, habits, knowledge, and passion to be responsible citizens of the global community.*

We believe that it is important to know what teachers, students, parents, and the broader community think about our education system and where it is headed. We need to understand what skills and competencies will be required to help our students be truly ready to meet the ever-changing global challenges that await them. Since our motto is “Seekonk Supporting Students”, we must find a way to meet the needs of all of our students.

In order to encourage an authentic conversation about where we are heading as a school district, we secured a viewing of the film “Most Likely to Succeed” and invited members of the Seekonk community to join us. The basic premise of the film was that schools continue to rely on an educational model that was developed a century ago, during the industrial age – a model that may no longer be relevant. Viewing this film and participating in the follow-up discussion provided an opportunity to compare different educational models, showcase the expertise of members of the Seekonk community, and acknowledge the accomplishments of our school district. At the spring in-service day, we again participated in a discussion about skills or knowledge needed for success in this quickly changing world. This was based on the work of a national expert on global education, Yong Zhao.

## Seekonk Public Schools Continued

### Curriculum, Instruction, and Assessment

*The following is a representation of the meeting activities of the Seekonk School Committee:*

*Since July 1, 2015*

*20 Regular Session Meetings,*

*6 Executive Session Meetings,*

*1 Public School Choice Hearings,*

*1 Public Budget Hearing,*

*1 Joint Sessions*

*1 Tri-board Meeting*

A general assessment regarding district curriculum was conducted which included a review of student assessment data, curriculum documents, instructional materials, and interviews with staff and administrators. Results indicated that our staff and administrative team are dedicated, hard-working, and passionate about what they do. Students are overwhelmingly invested in their learning.

Mr. Lind, the Curriculum Director, drafted a staggered, 6-year curriculum cycle that prioritized ELA and World Language, Science, Health, Physical Education/Family Consumer Science and Technology, Social Studies, Fine Arts and Music based on review of the data, staff and administrator feedback, and curriculum requirements. The proposal was then presented to the administrative team in order to confirm the direction and feasibility of this recommendation. It was determined that a districtwide, wide-angle and integrated approach to curriculum development, revision and sequencing would encourage flexibility and innovation, ongoing revision and sequencing, and the identification of needs (i.e., staffing, materials, and resources) throughout the strategic planning process.

As with many districts, there was a time-consuming and labor-intensive focus on high-stakes testing over the past few years. In fact, Seekonk was randomly selected as a pilot site for PARCC testing on more than one occasion. As a result, the district had to quickly assure that we had adequate technological capacity and training.

## Seekonk Public Schools Continued

---

### PARCC

The Partnership for Assessment of Readiness for College and Careers Assessment was administered again in FY 2015-16 for grades 3 through 8. This decision was made based upon a number of important considerations. For example, any subsequent statewide assessments would be administered in a digital format, students would have an opportunity to become more familiar with all aspects of online testing, and we could gather valuable information regarding technological capacity, instructional techniques and strategies, data collection, analysis and application, professional development needs, and curriculum adjustments. PARCC results showed that our students did well, particularly when compared to communities deemed similar to Seekonk Schools.

### MCAS

This assessment continues to be a graduation requirement; therefore, it was administered at the high school level. Seekonk students obtained scores within the proficient level at a rate above state averages (80 vs. 69) and scores for ELA, math and science were notably higher when compared to scores across the state as noted on the Department of Elementary and Secondary Education website. In fact, Seekonk's scores on MCAS denoted increases in most areas over the previous year.

### Special Education

The Special Education in-house programming continued to focus on Positive Behavioral Instructional Supports, a proactive model that establishes the behavioral supports and social culture that is needed for all students in a school to achieve social, emotional and academic success. This was evidenced in the therapeutic alternative program (TAP) at the Hurley Middle School and in-district classroom at the Martin Elementary School.

## Seekonk Public Schools Continued

---

Throughout the year, a Special Education Task Force, consisting of twenty-six administrators and educators, met regularly to reassess all special education programming. The primary goal was to assure an effective, practical and cost-conscious response to the ever-changing needs of our special education students. Overall, findings emerged that identified a lack of space, particularly at the elementary level, as a serious concern. In other words, the lack of space could significantly restrict any further growth in the development of in-house special education programming.

Aligning with Social-Emotional Learning Initiatives in Massachusetts and across the nation, the district provided professional development offerings that were reflective of this important part of teaching and learning. For example, Suicide Prevention Training occurred for the district (\*see PowerPoint presentation available on district website) and a Community Resource Guide was posted on the district website under Annual Required Training/Suicide Prevention.

Staff at Hurley Middle School consulted with Dr. Ross Greene or a member of his staff throughout the year via Skype to pilot a model of care supporting the emotional well-being of all students (i.e., Collaborative & Proactive Solutions). Related professional development and training on this topic was also made available to all staff. Similarly, Marisha Znosko, a School Psychologist at the Hurley Middle School, presented a two-day workshop to educators on Understanding Executive Function Deficits and Deciphering Cognitive and Achievement Testing. Speech therapist, Ellen Corvi, hosted a book club at Aitken Elementary School to address social learning and attention in the classroom (Social Thinking Skills).

## Seekonk Public Schools Continued

---

This year is the first year that the English Learners (EL) have an English Learner class built into their schedule at Seekonk High School. The EL students are now able to earn credit for ESL. Donna Laliberte, ESL teacher at Seekonk High School, and Christine Whatley, Director of Guidance, worked tirelessly with the school administration in creating these courses and fitting them into each student's schedule.

The EL Department hosted a "Family Night" at the Seekonk Library in November 2015. Seekonk High School students read to the elementary students and worked on numerous arts and crafts activities. In June, the EL Department also hosted a Family Report Night at the Martin Elementary School in order to explain and review the results of the ACCESS assessment taken by all ELs. ACCESS scores from 2016 indicated an increase in performance across all levels and with significant progress in overall test scores with the former Level 1 and Level 2 students.

FY2016 was the final year for legislatively appropriated funding for Sheltered English Immersion (SEI) Endorsement training. Many staff members took advantage of this opportunity. Matthew Faria, Caroline Haley and Donna Laliberte, the district's ESL teachers, provided a two-day workshop to inform educators about the defining features of an English Language Learner (ELL), the challenges ELLs face, the strategies necessary to instruct EL students, and how to understand and interpret the W-APT/MODEL/ACCESS. The district also provided additional and ongoing professional development opportunities regarding diverse learners whereby educators were able to earn 15 professional development points (PDPs).

## Seekonk Public Schools Continued

---

### Special Education

The district focused on other important factors affecting student learning. In other words, we reinforced a holistic, ecological, and child-centered model. Aligned with the Department of Elementary and Secondary's initiative on social-emotional learning, we expanded the Collaborative and Proactive Solutions Model developed (Dr. Ross Greene), further developed the Positive Behavioral Instructional Support System, and provided districtwide and building-based professional development opportunities on school readiness and other related skills (e.g., empathy, self-control, listening, and communicating).

In order to prepare students with essential college and career readiness skills, both academic rigor and relevance were expanded. For FY 2015-16, 248 students signed up for advanced placement courses, new courses were added, and staff continued to access training opportunities to expand options and bolster expertise. At the spring meeting of Mass Insight Education, Seekonk was honored as one of the top 4 districts out of 71 schools in Massachusetts that evidenced significant growth in students obtaining qualifying scores over the previous year. Of note, many students who would not typically take advanced placement courses participated in the program thus truly "taking the challenge".

### Unified Sports

An integral part of the "whole-child" model was the incorporation of Unified Sports in the district. The Massachusetts Interscholastic Athletic Association and Massachusetts Secondary School Athletic Association partnered with Special Olympics Massachusetts to develop an inclusive sports program for students who would not have an opportunity

## Seekonk Public Schools Continued

otherwise. Mr. Fred Crippen, Athletic Director, readily embraced the idea, a Memorandum of Agreement was approved, a Unified Sports track coordinator, Ms. Nelson, was hired and a track team for interested high school students materialized. Events were well-attended by staff, parents, and students. As a result of the overwhelming success of this program, a basketball team for FY 2016-17 will be added. In a parallel process, a Unified Sports basketball team was developed at Hurley Middle School. Kevin Hurley Jr., who coordinates the program at SCEC, served as a consultant to kick off this initiative at the middle school. Ms. Alexis Bouchard, interim assistant principal, coordinated games and practices and Dr. Whalen, principal, made sure that everyone had a uniform.

### Community Relations and Partnerships

**Full-Day Kindergarten Initiative:** This year, a task force was established to determine the feasibility of providing a tuition-free, full-day kindergarten program. Numerous meetings were scheduled to review current research, compare programs in other districts in Massachusetts, survey staff and parents, identify possible re-structuring options, and complete a preliminary assessment of current facilities and projected costs. In the spring, the FDK task force made a recommendation for approval to the School Committee for FY 2016-17.

**School Resource Officer:** Over the years we have benefited from the support of our school resource officer. This year, Officer Matthew Gardner seamlessly became part of our staff. He was always available, easy to approach, a good problem-solver, kind and compassionate, and willing to try new things.

## Seekonk Public Schools Continued

---

**Notaries Public:** At least two staff members from each school and four staff members from central office became notaries public to assist parents with this service. The intention was to also reduce the burden on town hall staff, particularly with regard to the completion of school residency documents.

Over the course of the year, three workshops were offered to address important topics facing staff, parents, and students today. Included were: (1) Developmental Expectations -Dr. William Brown – presenter, (2) social media and (3) substance abuse. We are grateful for the collaborative effort of district administrators, members of the Seekonk Police Department, and community experts. All PowerPoint presentations and research articles were posted on the district website.

### Technology/District and School Resources

**Paperless Initiative:** This year, the district moved toward a digital platform. When comparing districts in Massachusetts, it became clear that paperless initiatives are variable yet the most successful applications are incremental and initially focused on curriculum-related areas. This is true for our district as well. In order to expand this process, a task force was created to investigate paperless alternatives with regard to clerical efficiency, organization, and ease of use in a number of human resource areas (i.e., space, access, reduced costs, redundancy, transparency, record retention and security). We now have an online job application process, paperless school committee agendas, and sufficient copiers to scan documents to avoid reliance on hardcopies or mail. We now live-stream all school committee meetings.

**Google Platform:** In the fall of 2015, there was a move to a Google platform and the option of sharing work via Google Docs. This opportunity as well as reliable internet

## Seekonk Public Schools Continued

---

use and access also supported our paperless initiative. Throughout the year, a number of workshops as well as personal support and training were offered by members of the technology department spearheaded by the District Instructional Technology Coordinator. Not only did this initiative provide an array of options, it was also cost-effective, and educator-friendly. We are currently using Google Docs/Slides, Calendar, Classroom, Google Drive, translation tools, and email for both staff and students.

Members of the District Technology Committee met throughout the school year to update the Responsible Use Policy. This was particularly important since social media and other online tools have become integral and applicable for school use.

**Assessment:** As a result of our previous experiences with online assessment, we were able to anticipate and address possible glitches and things proceeded relatively smoothly. Additional Chromebooks were available so that each student had sufficient access and training. Members of the Technology Department arrived before the start of school on the days that PARCC assessments were scheduled to assure a seamless and trouble-free experience for staff and students.

We are proud of the work we do in Seekonk. Our students, staff, parents, and members of the community have worked hard to support sound educational opportunities for our students.

Respectfully submitted,

Arlene F. Bosco, MA, C.A.G.S.  
Superintendent of Schools  
Seekonk Public Schools

*The mission of Mildred H. Aitken School, in partnership with children and families, is to maintain a safe, nurturing environment in which responsibility, mutual respect and high academic standards are achieved.*

### REPORT OF THE PRINCIPAL MILDRED H. AITKEN SCHOOL 2015-2016

As of October 1, 2015, Mildred H. Aitken School had 414 students in grades preschool through five. The student body follows:

<u>GRADE</u>	<u>Oct. 1<sup>st</sup> ENROLLMENT</u>
Preschool	21
Kindergarten	55
Grade 1	63
Grade 2	58
Grade 3	68
Grade 4	66
Grade 5	83
<b>Total 414</b>	

The Aitken School Council’s focus on school improvement continued to reflect the high standards of the New England Association of Schools & Colleges, Inc. The school goals for the 2015-17 school years include 1) strengthen vertical curriculum and articulation within and across grade levels in all curricular areas, 2) create and begin to implement a two-year professional development plan to address the needs of students and staff, 3) work to promote and develop a budget that provides appropriate staff to meet the needs of Aitken students, and 4) increase engagement of families and strengthen community knowledge by holding a PTO Seekonk benefits fair in 2016. Each grade level also set and met goals in the area of increased student achievement and differentiation. The Aitken School Council, parents and school staff

## **Seekonk Public Schools Continued**

---

attained goal 4. The Council organized and held Discover Seekonk on March 18, 2016. Visitors were able to explore town services, opportunities and businesses that were represented by over 30 groups/businesses. In 2017, all school councils will work together to host a district-wide and town-wide Discover Seekonk.

Aitken School continued to be very involved with elementary curriculum development, instruction and assessment. Throughout the year, teachers received training and worked on the continued implementation of the Lucy Calkins Writing Program and of the Tools of the Mind kindergarten and preschool programs. During this school year, 4 classroom teachers in grades 1, 3 and 4 were trained in the Readers' Workshop methodology and were designated as lab teachers. For this, the district contracted with the Teaching & Learning Alliance to provide training and support for lesson planning, demonstration, coaching and curriculum development. Other professional development included curriculum work with a focus on English language arts and mathematics, Non-violent Crisis Prevention training, CPR training, Positive Behavior Interventions and Supports (PBIS) training, Google training, technology integration, PARCC tools training, and grade level common planning. Three Aitken teachers led professional development opportunities outside of the school day for the district which included Seekonk Reading PD by Joanna Rioux, the Making Thinking Visible Book Club by Barbara Manickas, and Google Forms by Jessica Trudeau.

In March 2016, the Mildred H. Aitken School submitted its 2-year report to New England Association of Schools & Colleges (NEASC). The report contained detailed information of progress towards its goals of which 76% have been completed and 24% are in progress. The school was notified in May that its 2-year report was accepted and approved by NEASC.

## **Seekonk Public Schools Continued**

---

Aitken staff members voluntarily served on numerous school and district committees which included: the Aitken School Council, the Aitken Safety & Housekeeping Committee, the Aitken Technology Committee, the Aitken Data Team, the Aitken NEASC Steering Committee, the Aitken PBIS Committee, the Aitken CPI Team, the Elementary Math Committee, the Elementary English Language Arts Committee, the Seekonk Technology Committee, the Seekonk Mentoring Committee, the Seekonk Evaluation Committee and the Seekonk Professional Development Committee. Many members of the staff were also members of the South East Regional Reading Council and other professional organizations.

For the second year, students participated in Partnership for Assessment of Readiness for College and Careers (PARCC) assessment in English language arts and mathematics which replaced the MCAS assessment in grades 3-8. The student test scores received from FY15, established a new baseline aligned with the Massachusetts Common Core State Standards. Aitken School continued to be designated as Level 2 status. The Aitken School Data Team and faculty analyzed the results after their receipt and each grade level developed goals to strengthen the weaknesses that were identified. Differentiation of classroom instruction for students continued to be supported by classroom teachers as well as 5 special education teachers, 1 reading specialist, and 2 differentiated instruction teachers.

Student growth and progress on the Massachusetts standards were assessed throughout the year. Students in grades 2-5 took computer-based Galileo tests in reading and mathematics which monitored student growth, strengths and needs. Kindergarten students took the Metropolitan Readiness Test in May and the Diagnostic Reading Assessment test was given to students in grades 1-3. Common elementary

## Seekonk Public Schools Continued

---

assessments were given in k-5 classrooms. The grade level, class and individual results were used to assess student growth, inform instruction and report progress.

Reading Recovery that supports students in grade one was fully implemented at Aitken School again this year by our reading specialist and trained differentiation instruction teacher. The majority of the first students had reached the standard end-of-the-year reading level by June of this school year. 25% of the first graders benefitted from Reading Recovery.

Eligible fifth grade students were honored with the President's Education Awards. The program, sponsored by the US Department of Education, recognizes the dedication, achievement and perseverance of students. 12 students received the President's Award for Outstanding Academic Excellence in June.

All grade levels celebrated and highlighted their students' successes during events related to their grade level curriculum. The kindergarten classes performed their annual school play in March and the kindergarten and preschool students "graduated" to the next grade in front of their families and friends in June. First grade students completed a variety of writing assignments and invited their families to an Authors' Celebration. Second graders attended Seekonk's 9/11 Remembrance Ceremony and led the audience in the Pledge of Allegiance. Students in grade three studied the history of Massachusetts throughout the year and captivated our community and parents with their Massachusetts heroes live Wax Museum. Grade 4 students extensively studied immigration and created projects that depicted their families' heritages. In early spring, they visited Slater Mill as a culminating event. At the end of the year, grade 5 students

## Seekonk Public Schools Continued

---

wrote and shared essays of their elementary years with their parents at their promotion to middle school ceremony.

Aitken School's commitment to the arts continued to be supported by the staff and Aitken Parent Teacher Organization. There were numerous classroom productions throughout the year. The 19th annual Aitken Creative Awareness Week, under the direction of the PTO and art teacher, was a huge success. The events focused on student presentations, enriching performances, and an art and talent show. The fifth grade band also delighted audiences with their performances in February and May as they demonstrated enormous growth with their musical instruments.

Aitken School further enriched its students thanks to the generosity of the teachers, parents, and the Aitken School Parent Teacher Organization. Outstanding programs/events throughout the year included Aitken Walk-a-thon, Pumpkin Somethin', Flames of Fall, Holiday Shop, Snack with Santa, Evening of Giving, Sweetheart Dance, Breakfast at the Movies, Reading Week, book fairs and challenges, Mother's Day Plant Sale, and field days. In addition, support was given to several long-standing reading programs - the Accelerated Reader Program and the RIF Book Distributions. Help with the cost of field trips, library books, assemblies, in-school programs, playground materials and classroom supplies have enhanced a rich educational environment. Once again, Aitken owes an enormous thank you to the Aitken School PTO and its co-presidents, Shannyn Nelson and Tanya Romani.

Aitken continued to be involved with a number of charities and foundations. Horace Mann, founded by educators for educators, donated two Kindles that were raffled off to students in grades 3-5 who earned tickets by demonstrating our PBIS goals which

## **Seekonk Public Schools Continued**

---

promote responsible, safe and respectful behaviors. The school also continued its partnership with the Alan Shawn Feinstein Organization and community service was visible throughout the year. Teachers assisted with these initiatives and others that included the Jump Rope for Heart and food drives for the Doorways Food Pantry. The Reading Rocks Challenge sponsored by Romani Orthodontics encouraged reading and provided a very generous donation through the PTO for library books and classroom supplies. The students and their families contributed to numerous drives including pet supplies, winter clothing, books, new toys and hand-made gifts. Blood drives were held in September, January and May. The students also benefited from program grants to the Aitken PTO from the Seekonk Arts Council as well as from donations from the Paw Sox, Sky Zone and other community businesses.

Aitken School celebrated the careers and contributions of two staff members that retired this year. Our school nurse, Deborah Bostian, retired in December, and our preschool and out of district coordinator, Lucille Provazza, retired in June. Both will be truly missed by students, parents and staff.

Respectfully submitted by,  
Nancy Gagliardi  
Principal of Mildred H. Aitken School

## Seekonk Public Schools Continued

*Our vision for the students attending the George R. Martin Elementary School is for the students to become life-long learners prepared to contribute in an ever-changing global society with personal integrity and confidence.*

**REPORT OF THE PRINCIPAL GEORGE R. MARTIN ELEMENTARY SCHOOL  
A Level I School  
A Feinsein Junior Scholar School**

The mission of the George R. Martin Elementary School is to provide the finest possible education for students in an environment where they may achieve their potential through a partnership of home, child, and school.

**SCHOOL POPULATION**

Martin School continues to educate an increasingly diverse population comprised of 24.5% low-income students (qualifying Martin as a Title I targeted assistance school) the highest number of English Language Learners in the district, 24 students, and an increasing special education population. The school has three distinct special education rooms, assisting children in need of cognitive, language and social/emotional support.

The students are currently distributed, by grade level, as follows:

<b><u>GRADE</u></b>	<b><u>TOTAL</u></b>
Kindergarten	63
1	69
2	53
3	91
4	84
5	91
Total	451

## Seekonk Public Schools Continued

---

### THE GEORGE R. MARTIN SCHOOL COUNCIL

The George R. Martin Elementary School Council consisted of the principal, 3 teachers and 3 parents/community members. Our focus for the year was to create and maintain a school improvement plan that continued to meet the needs of the students both academically and socially. The council met 7 times during the year to ensure the safety and wellbeing of all who come to Martin School, plan for a rigorous future and create a quality student handbook.

One priority for the school council was to support a plan that recognized the school's alignment with both the common core curriculum and proficient-teacher rubrics, creating student growth, and looking to improve community and parent relations. Goals in the plan focused on working with teachers to interpret test data, create instructional groupings in classrooms and work with support staff to provide direct instruction in skills that needed extra help. The support staff in the building was also used in a way that provided specific interventions to students that were identified as needing improvement in one or many content areas.

The school council continued to acknowledge the need for continuous assessment of safety procedures, community partnerships, high levels of technology integration, and the providing of enrichment opportunities for students.

## Seekonk Public Schools Continued

### PERSONNEL

The entire staff at the George R. Martin Elementary School continues to work diligently to provide a well-rounded education to the students in the school. The staff consists of 2 kindergarten teachers, 6 special education teachers, 18 classroom teachers, and numerous support staff. Differentiated Instructors work with small groups of students throughout all grades. A Title I teacher implements Reading Recovery, offered to students in first grade as a specific reading intervention for those in need. A differentiated instructor and the Title I Reading teacher are paid in part with Title I grant money.

### THE GEORGE R. MARTIN PTO

Parents that participate in the PTO throughout the year share responsibilities in planning events, offering grade level enrichment or working to coordinated in school field trips, such as the museum of science visits. The PTO works extremely hard to grow the lives of our students. Parents and community members have supported Martin School's transition to being more proactive in using technology in all classrooms. Every room has a new Epson Projector and almost all rooms have an interactive learning device (SMART board, Mimio etc.)

## Seekonk Public Schools Continued

---

### SPECIAL EVENTS AT GEORGE R. MARTIN ELEMENTARY

Throughout the year many events were held that brought the students, staff and community together. Writing was enriched for the fourth grade (fourth year in a row) by Steven Krasner, a sports writer and children's book author. Bill Harley, a local musician and author with national fame, visited the whole school. Martin School continued its school-wide behavioral intervention support program (PBIS), based on the book *Have You Filled Your Bucket Today*. The program contained many smaller integrated incentives including students participating in a "student of the month" positive character program sponsored by Horace Mann. Horace Mann and the PTO donated Kindle readers as awards (tied into the school-wide program). Student of the month events brought anti-bullying and character building messages to students along with monthly awards. PBIS translated into various other positive incentives programs ranging from Math awards, to Accelerated Reader comprehension awards, to Wii bowling for students having eight great days in a row. For the fourth year, Math Game Night and English Language Learners night (ELL) were held at Martin School.

The PTO organized many family nights. These were free or affordable events for families to come and get to know one another; these included Father/Daughter events, Mother/Son events, and so on. The Martin Spring Fling was held once again and was bigger and better than ever. Many families stayed the entire day to enjoy the games, food and demonstrations. A night was held for kindergarten open house. Parents came to see the school, met the principal, and listened to a wonderful presentation from the kindergarten staff on expectations and reminders for the year ahead. During whole-school open house in September, parents were also able to visit classrooms.

## Seekonk Public Schools Continued

---

The Martin School, again, participated in a Father's Reader Week. As part of creating a welcoming culture and reflecting the many ESL students attending Martin, morning announcements, this year, were read in 5 different languages. An afterschool Spanish club and French Club entered a fifth year with the support of the SHS Spanish Club and French Clubs. A Civics based Technology club worked to create artificial, 3-D printed limbs for a charitable organization.

### Tutoring and Technology

We were able to benefit from Title 1 funds to offer afterschool tutoring in Math. Students also benefited from the addition of 4 new Chrome Book carts. In 2016-2017 the number of laptops and iPads should equate to a device for every student.

### Concluding Remarks

The George R. Martin Elementary School continues to be a wonderful environment for students to learn academically and grow as responsible citizens. The working atmosphere for the staff is one of respect and collaboration. The students are on a path as life-long learners. This is a credit to the hard work done by the students, staff, parents, the PTO, and the community.

We will maintain focus on improving student learning and character. Looking to the future we plan on intervention grouping to maintain rigorous learning in larger class-sizes as new construction continues in our district.

The school always has an open door policy for community members and volunteers. With the efforts of all stakeholders, our children will succeed. We are a state recognized,

## **Seekonk Public Schools Continued**

---

Level I school. We received an 8 out of 10 on GreatSchools.org, the website used to rate schools for most real estate agencies.

Sincerely,

Mr. Bart Lush  
Principal, George R. Martin Elementary School

## Seekonk Public Schools Continued

---

The Dr. Kevin M. Hurley Middle School has completed the 2015 – 2016 academic year under the leadership of fourth year Principal, Dr. William V. Whalen III, and Interim Assistant Principal, Ms. Alexis A. Bouchard. The student population at the close of the school year by grade level was as follows:

Grade 6	170
Grade 7	175
Grade 8	182
<b>Total</b>	<b><u>527</u></b>

The Dr. Kevin M. Hurley Middle School includes 51 highly qualified faculty members in addition to many extraordinary staff members and support personnel. This year, we were able to add world language to our program studies, including both Portuguese and Spanish for students in all three of the grade levels. Two certified educators were added to our faculty roster to teach those classes. The world language teachers were provided some common planning time with the teachers of the world language department at Seekonk High School during faculty meetings. We also were able to add a full time ELA Lab teacher to provide support to those students that struggle in ELA, allowing our full time Reading teacher to focus solely on specialized reading. The position of Library Aide was also reinstated this school year, in order to provide support for the Library/Media Specialist throughout the day.

A focus of our work included providing a well-rounded education the services the needs of the whole student. This year, teachers took time during Super Core classes to facilitate conversations with students about problems that middle school children may

## Seekonk Public Schools Continued

---

have to work through that are not academic in nature. In order to do this, our school partnered with Jostens Renaissance Education. Through the Jostens Company, students were able to watch short videos on a weekly basis. The video series, The Harbor, hosted by Mike Smith, provided students with perspectives from real people aiming to help them to deal with common issues that may come up for students while in middle and high school. This was one of many ways that teachers at Hurley Middle School focused on educating the whole child this year. Many grade-level assemblies in addition to smaller class meetings took place with teachers and students in order to educate students on decision-making, the importance of having good character, persevering through difficult times, and other topics that are important for students to have an understanding of in order to keep a positive school climate.

At Dr. Kevin Hurley Middle School, we have also begun a focus on shared leadership. This year, we instituted what we call our Educator Leadership Team. This is a team of faculty members and educational leaders that work together to help promote a culture where teachers are empowered to exercise initiative and leadership essential to the improvement of the school and to increase students' engagement in learning. This past year the team conducted research on educator leadership, and worked on some projects. The projects included, but were not limited to, adding a chartered National Junior Honor Society to our school, implementing Unified Basketball, researching what needs to be done for our school to be recognized as a NELMS (New England League of Middle Schools) Spotlight School, and worked on planning a strategy to implement instructional rounds in our school. The purpose of implementing instructional rounds is for teachers to participate in informal peer observation to allow educators to assess what our school-wide strengths and weaknesses are in regard to teaching and learning. This will allow us to better focus our professional development. Additionally, we have

## Seekonk Public Schools Continued

*The Dr. Kevin M. Hurley Middle School community seeks to develop students to their greatest academic, personal, social, and physical potential by providing a challenging, quality education incorporating the latest theories of learning and adolescent development. We look to prepare students for the challenges of the future by assisting them in becoming self-directed learners with the necessary problem solving and critical thinking skills and creativity to be successful in an informational, technological, and global society.*

formalized our Student Leadership Team. This is a team of 10 students that work with the Principal, Assistant Principal, and members of the Educator Leadership Team on special projects. Some projects included making presentations at the State of the School Address in January. Furthermore, the student leaders participated in Unified Basketball. Students also prepared presentations for the 5th Grade Transition Assemblies at the Aitken and Martin Elementary Schools, as well as provided guided tours for the fifth graders when they visited HMS in June. Student leaders also spent a morning reading to students at Aitken Elementary School this past February.

This year, educators in our building participated in the statewide educator evaluation system for the third year. Teachers receive frequent unannounced observations. Educators on a one-year plan receive a Formative Assessment halfway through the year, and a Summative Evaluation at the end of the year. Teachers on a two-year plan receive a Formative Evaluation at the end of year one of the plan, and a Summative Evaluation at the end of year two. Teachers are rated on four standards. The standards include Curriculum/Planning/Assessment, Teaching All Students, Family and Community Engagement, and Professional Practice. They also receive feedback on the progress that they are making toward Student Learning Goals and Professional Practice Goals. The faculty of HMS meets twice a month, with the first meeting led by the Principal. The second meeting of the month is held by academic department and is led by a Curriculum Leader. The topics of those meetings include analyzing data, curriculum documents, pedagogy, and budgeting. Sometimes the second meeting of the month is reserved for academic teams to meet. This year, the second meeting of the month was also sometimes planned to include "Breakout Sessions." These

## Seekonk Public Schools Continued

---

are teacher-led sessions, where faculty members can choose from a menu of different professional opportunities led by teachers on our faculty that want to share successful practices with their colleagues. This is another great way for our teachers to lead from the classroom, sharing their expertise in different areas with their colleagues in order to improve teaching and learning at our school.

This document will report out on how the goals of the 2015-2016 School Improvement Plan were met. The 2016-2017 School Improvement Plan takes this information into account, and includes revisions and additions in order to meet the current needs of our school.

**School Goal #1:** This goal is written around alignment of the curriculum. Members of the middle school and high school social studies, ELA, science, world language, and math departments met this year periodically in order to work on the alignment of the curriculum vertically and horizontally. This is something that will need to continue with again next year. We will also be looking to plan time so that middle school teachers can also meet with elementary school teachers to work on curriculum. Moving forward, we will continue to work on planning for a schedule that allows all eighth grade students to take Technology/Engineering in 8th grade as a core subject. Also, science teachers have been working to plan curriculum around the Next Generation Science Standards, which were approved this school year. Beginning next year, our sixth grade teachers will roll out a new curriculum geared toward addressing the NGSS. Teachers were provided with some professional development during the course of this past school year to work on that curriculum, and that will continue on for next year as well.

## Seekonk Public Schools Continued

---

**School Goal #2:** This goal is written to improve teaching and learning via the analysis of student assessment results, and other pertinent data. Students have taken the PARCC test over the last two years. Next year, students will take the next generation of MCAS, called MCAS 2.0. Teachers need to be able to examine item analysis data in order to help drive their classroom instruction. Without an item analysis over the past two years, teachers have been creating and revising common interim and benchmark assessments. In ELA, math, and science, students have been taking the Galileo Assessment in order to provide this data for their teachers. We continue to improve upon teaching and learning through the educator evaluation system, which includes frequent unannounced classroom visits conducted by administrators. Teachers and administrators discuss the lessons after the observations in post observation meetings where feedback is offered. Formative and summative evaluations with teacher ratings and feedback that is offered are also part of the evaluation process.

**School Goal #3:** This goal is written to create an academically rigorous environment that supports and addresses learning gaps for all students and includes research-based effective classroom practices. Some teachers continued this year with conducting informal peer observations and offering feedback to each other. This was done mostly by new teachers and their mentors, but some seasoned teachers also participated. Teachers continue to focus on strategies such as framing learning, activators and summarizers, posting key terms, meeting diverse needs of students, planning well-structured lessons, and creating a variety of ways to assess students. In addition to educating the needs of the whole child, teachers continue to utilize Super Core classes to enrich high achieving students and offer support for struggling students. We continue as a faculty to work on ways to provide students with consistent rubrics, vocabulary, skills, and processes across the disciplines to promote school-wide literacy skills. This

## Seekonk Public Schools Continued

---

year, the sixth grade teachers set a team goal to research and educate their students on Close Reading as a valuable literacy skill.

**School Goal #4:** Dr. Kevin M. Hurley Middle School continues to make communication with parents a priority. Every Friday, the weekly Parent Newsletter is published on the Principal's Page of our website. The newsletter includes news from administrators, as well as curriculum updates, news on extracurricular activities, and more. This year, we have begun to include student work samples as part of our newsletter. Teachers and administrators continue to use Twitter as a social media resource to update parents and members of the community in regard to activities that are going on in our school both during the school day, and in the evenings. We continue to focus on improving our involvement when it comes to community outreach. Our Student Council Advisors have been planning their goals around community involvement and making a connection to town government. Moving forward, we also plan on developing a student survey as well as a parent survey in order to gather feedback at the end of each school year.

**School Goal #5:** This goal is to develop programs that engage students in and recognize them for developing a strong sense of self-concept, personal responsibility, and good decision-making skills. We have continued with our Star of the Month Breakfast Ceremony to recognize students, and plan moving forward to improve upon it by incorporating monthly themes. We continue to reflect upon and improve our State of the School Address that is presented every January. This past year's State of the School Address included some very engaging strategies to captivate the attention of our students while discussing some very important information with them. Once again, students participated in College and Career Readiness Day, and had the opportunity to hear from local career professionals. Eighth grade students also had a presentation

## Seekonk Public Schools Continued

---

from local colleges on that day. This past spring, we also had a school-wide assembly, which was a presentation from Mr. Ed Gerety. Mr. Gerety is a motivational speaker regarding student leadership, focusing on respect, character, appreciation, attitude, and making a difference.

**School Goal #6:** This is a goal that focuses on recognizing, developing, and promoting educators. We continue to use faculty meeting time to better enhance teaching and learning as a whole. There has been increased collaboration time between teachers regarding instructional strategies and effective practices through peer observations. A team of teachers have been engaged in researching best discipline practices through Dr. Ross Greene's book *Lost at School*. The work that we've done with our new Educator Leadership this year also supports Goal #6.

**School Goal #7:** This goal is written to provide quality health service programs for students that allow them to participate in activities that promote physical and social-emotional development. The school has partnered with Chartwells to provide presentations by a chef at lunch from time to time in regard to healthy cooking and eating. We offer intramurals in dodge ball and volleyball. This year, we also held our 2nd Annual Veterans Race to students in elementary and middle school.

**School Goal #8:** We have continued to evaluate our BASE special education program. Next year, will offer a specific section of the program that will service students in multiple grade levels and be able to support their diverse learning needs.

Our School Improvement Plan for 2016-2017 has been streamlined to include five goals, each with action steps that reflect the current needs of our school.

## Seekonk Public Schools Continued

---

Once again this year, HMS offered students many additional opportunities to learn outside of the walls of the building. The Eighth Grade Class Trip to Washington DC involved 130 students and over twenty adult chaperones. This year's trip included a stop in New York to see the 9/11 Memorial and Museum, as well as a day at Hershey Park, in Hershey, PA.

Extracurricular programs at the middle school continue to flourish with extraordinary participation by students. Students participate in cross country, as well as boys and girls soccer in the fall. The winter season includes basketball for boys and girls, and the spring sports teams include baseball and softball. HMS also has a Student Council, Builders Club (a community service group), Knitting Club, HMS Idol (a talent competition), and more. Students in this year's Drama Club performed *Something Cursed This Way Comes*, an original performance written and produced by students. This year, our newly formed Debate Team was victorious in both competitions that were held this year. All of our athletic and academic teams, such as the Math Team and Debate Team, participate in the Massasoit League of Middle Schools, an organization that is managed by the principals of the schools in the league.

The end of the 2015-2016 school year saw the retirement of two wonderful educators that have served in the Seekonk Public School District for many years. Our retirees include Mrs. Patricia Libby, a social studies teacher, and Dr. Alice Combes, School Psychologist. These individuals were honored at our annual 8th Grade Promotional Ceremony, which took place on the front lawn of our campus on June 16, 2016.

## **Seekonk Public Schools Continued**

---

Overall, this was a very successful school year at the Dr. Kevin M. Hurley Middle School.

Respectfully submitted by,

Dr. William V. Whalen, III  
Principal, Hurley Middle School.

## Seekonk Public Schools Continued

### Seekonk High School

Enrollment as of October 1, 2015 (586):

9th - 158

10th - 137

11th - 141

12th - 150

This Seekonk High School continued to challenge students academically this year. We have continued our partnership with Mass Insight and with the grant money have successfully added Advanced Placement Chemistry and statistics. We also look forward to adding Advanced Placement Environmental Science and Sustainable Technology next year. We are also committed to continually revising our curriculum to make sure it is relevant, challenging, and engaging. An example of this is the strengthening of the coherence of the 9th grade curriculum, 9th grade teachers mapped out new units to be piloted next year looking at heroism from many different perspectives. An exploration of different types of heroes will also be in conjunction with taking advantage of resources provided by the grant from the Joyner Institute. Additionally, to expand on the diversity of the 10th grade curriculum, teachers took advantage of resources provided through a grant from the Joyner Institute. Select teachers and students met with artist Mino Emami, and then 10th grade English students learned about her life and her art work, followed by readings of poetry about war, and ending with students writing their own poetry related to the damage caused by war. Both of these changes and opportunities were made available through a partnership that Seekonk High School has formed with the Joiner Institute at UMass Boston.

## Seekonk Public Schools Continued

*Seekonk High School is committed to creating a safe, supportive environment where our students can develop the skills necessary to become independent thinkers and problem solvers capable of addressing the challenges and opportunities of the 21st century.*

Seekonk High School is also continually working on increasing the amount of technology integration occurring. This year, many more teachers used google classroom with students as a way to communicate about and post assignments while saving paper. Google classroom is also a great tool for students who are absent allowing them to stay on top of missed coursework. Another example of this integration comes from the World Language Department. Their students frequented the language laboratory more often this year and utilized technology in a variety of ways. The students created PowerPoints and videos, podcasts, GarageBand, ShowMe, Lingt Language to create and complete projects and assignments.

The World Language Department also coordinated another successful annual Honors' Induction Ceremony. Twenty-eight students were inducted into the National Honor Society, twenty-two were inducted into the Spanish Honor Society, six students were inducted into the French Honor Society and for the first time, six students were inducted to the brand new Portuguese Honor Society. Another first occurred when 35 students participated in the National Portuguese Exam. One of our students placed second in the country at the second level. Additionally, for a short time, we were excited to host an exchange student from Brazil here at Seekonk High School, where she studied the English and Portuguese languages.

### Teacher Growth

Our teachers continued to improve their practice and grow as professionals by earning various certifications and presenting at conferences. By way of example Mrs. Cunard taught Saturday sessions for Massachusetts Insight Education in New Orleans, LA and Plymouth, MA. Mrs. Cunard also taught a workshop for

## Seekonk Public Schools Continued

---

teachers at the CASE Conference at Bridgewater State University. Mr. Mello became a certified Early Enrollment Program teacher in Chemistry. We also have two teachers, Mrs. Borden and Mr. Petrucci, attending training sessions this summer to become certified to teach advanced placement classes.

### Student Learning

Student learning does not just occur in the classroom or through textbooks. Our students have taken part in many field trips, competitions, and extracurricular projects to enhance their understanding of the world around them. All the various disciplines at Seekonk High School strive to achieve this. A few specific examples come from the science, art, culinary, and world language departments.

The Science Club & Department held the first annual STEM Games Competition and sponsored an afternoon and evening with Dr. Jane Goodall at UMASS Dartmouth. Four students were able to present their research to Dr. Goodall and one student, an essay contest winner, had dinner with Dr. Goodall. For the second year, the Science Department and Science Club students hosted the annual STEM Fair for freshman students during which sixteen guest speakers discussed STEM careers with students; Science Café during the Evening with the Arts program where students from Biology II, AP Biology and Performance Based courses presented their original research; competed in Massachusetts Envirothon Competition. The Science Club also had students compete in The Women of Science Competition for the 5th year.

Seekonk High art students were recognized with a merit award from The Attleboro Arts Museum as a part of its annual "High Art" exhibition in May. "High Art"

## Seekonk Public Schools Continued

---

showcases the talent and ideas of high school students. This youth exhibition connects teens with artists both past and present, fosters the creation of original artworks, and provides a professional forum for students to voice their own creativity and work collaboratively. This year students prepared for High Art by working with Mino Emami and Iranian Artist who shared her work and life story with the students. Their installation brought awareness of the innocent victims of war called "Reaching for Peace".

There were also many cultural events and activities that took place in an effort to further educate students about the world in which they reside. In the spring semester, the students created an International Month celebrating the culture of Seekonk High School and of the world. Flags of various countries decorated the lockers and hallways, while traditional music was played in the background. World Language classes learned about el dia a de los muertos, we celebrated cinco de mayo with a pinata, wore colorful beads to celebrate Mardi Gras and danced all day on 10 de junho, dia de Portugal. Twice this past semester, Luis Baez demonstrated a classic Dominican Republic dish for Mrs. Dahmer's culinary class. Both dishes were made with chicken, rice, and pasta, and traditional Spanish style seasonings yet were very different. As Luis cooked, he talked about how his grandmother would build a fire in the fields where they worked and with just a pot or two made one of these dishes. The food was delicious, greatly enjoyed and it became a great cultural experience for the students as well as the teachers!

### Media Center

The SHS Library Media Center hosted an average of 2,700 student visits each month during the school year 2015-16, with an average of nearly 70 class visits

## Seekonk Public Schools Continued

---

each month. More than 1,700 books, movies and magazines were circulated to students and teachers in SHS, and over 300 new books were added to the collection, including 223 non-fiction and reference books, to support student research across the curriculum. As you can see, Seekonk High School's Media Center continues to have an enormous impact on students. In fact, there are so many students vying to use this space both before and after school that we needed to create a position to supervise extended hours in the upcoming year. Students and teachers alike make use of the print, video, and digital resources found there. Mrs. Larson, the library/media specialist, also heads up the selection process for the summer reading book. She has been instrumental in providing resources for and assisting in the creation of our first annual "interdisciplinary days" next year.

### Athletics

Seekonk High School had an excellent year with many accomplishments under our new Athletic Director Fred Crippen. The Fall Season saw the Field Hockey, Girls Soccer, Boys Soccer, and Golf teams qualify for post-season play. This was capped off by senior Girls Soccer player Emma Sanders being named to The Boston Globe All Scholastic team. During the Winter season the Girls Basketball team qualified for the State Tournament for the first time in twenty years. Freshman Shot Putter Cammie Garabian set records and competed at the highest level of the Massachusetts Track and Field Association. Boys and Girls Swim, under the direction of new Head Coach Brian Cameron, had eight swimmers qualify for both the Sectional and State Swim Meets. The Spring Season saw Seekonk High School institute its first ever endeavor into Unified Sports with the help of a grant from "Project Unify". The team was coached by Kristen Nelson and had a 6 win 2 loss meet records, and had ten medal winners in the Sectional Meet and seven medal winners at the State Meet. Cammie Garabian and

## Seekonk Public Schools Continued

---

Senior Zach DeBlois won Division 4 in the Shot Put and Discus respectively and both went on to compete at the State Meet. Seekonk's Girls Softball team qualified for post-season play for the second consecutive season.

### Community

Our parent groups continued to support the high school. Both the Parent Advisory Committee (PAC) and the Athletic Boosters Club provided scholarships for students. These two groups also purchased items that we would not otherwise have.

Once again Mrs. Marinucci and the members of Key Club sponsored the Annual Easter Egg Hunt. Members of the Honor Society and other volunteers cleaned up the courtyard. Little Warrior's Pre-school and the drama club continued to both serve and entertain the community at large as well. The new Portuguese Club held a soccer tournament that was a huge success and their "Azulejo" Project was proudly displayed at the Seekonk Public Library throughout the month of June.

Our marching band continues to perform at football games, parades, malls, and concerts. Most importantly, they performed at the dedication of the Seekonk Veteran's Memorial. The SHS Symphonic Band received their 9th Platinum Award in the last 10 years at the Great East Music Festival this May. This represents the highest rating given by adjudicators at this Festival.

For the fifth year, the Spanish IV and V students created a ten week after school Spanish program for Martin Elementary School students; while the French III and IV students created a five-week program. All activities were educational and fun-filled.

---

### Special Education

The Special Education Department had a very involved year where they spent countless hours improving the delivery of services and updating their strategies to reflect the most current research. Their accomplishments have been many and range from academic to vocational successes. A few of these are:

### Academics

- 17 special education students attending Seekonk High School programs as well as 6 students in the Ontrack program successfully met graduation requirements and earned their high school diploma on June 3, 2016.
- Seekonk High School will hold the Extended School Year Program during the summer of 2016.

### **Vocational:**

- Multiple Special Education students participated in the Automotive Exploratory Program at MTTI and a CNA certification program. They also worked with a career specialist who facilitated employment related experiences (i.e. job shadows, opportunities fair, job placement)
- The Massachusetts Rehabilitation Commission (who assists students with disabilities after they have completed their high school programming) played a large role in providing services to students this year. Three students participated

## Seekonk Public Schools Continued

---

in an employment training program (TIP Program) through MRC which resulted in a 6 week paid internship. Two students are currently in the pre-employment training program which is a joint venture between MRC and Attleboro Enterprises Inc.

- Created six summer jobs with the Maintenance and Tech Department for students receiving Special Education services with money donated from Bay Coast Bank, and the Kiwanis, Rotary, and Lions Clubs.

### **Sports:**

- Unified Track & Field program had its first season and achieved many state awards. Seekonk High School will also be participating in Unified Basketball this upcoming Fall.

### **Therapeutic**

- The Seekonk High School Special Education program continued to facilitate Social and Transition Skills groups in all four of our special education programs (STARS, Learning Center, BEST, & TAP)
- Collaboration with Community Counseling of Bristol County continues in addition to collaboration and relationship building with many private therapists in the community.

### **Grants Awarded:**

- \$360 mini grant was awarded from the Seekonk Community Land trust to implement a student garden, built and operated by special education students.

## Seekonk Public Schools Continued

---

SHS special education department was awarded an \$8500 grant for our continued work in building our transition initiatives in alignment with DESE requirements and recommendations.

### Retirement

Mr. Lancaster, a science teacher, retired this year. He has left a large space to fill. Mr. Lancaster actually began his teaching career at Seekonk high School as a student teacher. It was only fitting that he end it here. He spent last summer rewriting his entire curriculum to incorporate a blended learning model which saw students working independently and increasing their understanding as they participated in flipped classrooms.

### School Improvement Plan

**Goal 1:** Align curriculum vertically and horizontally with the MA Frameworks/Common Core by June 2017.

**Goal # 2:** Engage in an inclusive process to review and revise our current expectations to ensure that they are measurable; address academic, social, and civic competencies; and target high levels of achievement. Each of the 21st Century Learning Expectations will be defined by school-wide analytic rubrics.

**Goal #3:** By June 2017, develop and implement a program so every student has an adult in the school, in addition to the school counselor, who knows the student well and assists the student in achieving the school's 21st century learning expectations.

## **Seekonk Public Schools Continued**

---

Finally, there will be a new format that welcomes incoming freshmen and new students to Seekonk High School. This new orientation will be a day full of activities designed to assist in their acclimation to the culture and physical space of the high school. This will then be followed by a lunch that we provide.

Respectfully submitted by,

Dr. Christopher Jones  
Interim Principal, Seekonk High School

## Seekonk Public Schools Continued

### Report of the School Lunch Program

I hereby submit my report to the Superintendent of Schools, the School Committee and the people of Seekonk.

All School lunch and breakfast meals meet the U.S.D.A. meal requirements. Student lunches qualify for state and federal reimbursement, while adults must pay the full cost of the meal, plus the state meal tax, \$3.30. The student lunch price is \$2.50 in the Elementary Schools, \$2.75 at the Middle School and the High School lunches are priced at \$2.85.

All a la carte foods and snacks in the schools meet the Massachusetts School Nutrition Standards for Competitive Foods and Beverages. Our Chartwells staff works hard to provide nutritious meals in a pleasant environment of our children.

From July 1, 2015 through June 30, 2016 we served the following:

Total Students Lunches:	128,185
Paid:	80,457
Free:	41,632
Reduced:	6,096
