## SEEKONK DPW COMPLEX BUILDING COMMITTEE

09.18.2024

### ➤ UPDATES, DISCUSSIONS and ACTION ITEMS:

- **Filed Subcontractor Bid Status:** Filed sub-bid subcontractor bids were received electronically through ProjectDog on September 12<sup>th</sup> at 3:00pm. The due date was pushed out a day due to the timing of addenda. Bids came in under the 60% CD average construction cost estimate by approximately \$1.8M. There was coverage in all categories and healthy competition. Reference bid tabulation. CGA recommends approval of the filed sub-bid subcontractor bids as presented with the following exceptions: **(ACTION ITEM)**
  - V&G Iron Works, Inc., (V&G) submitted two bids for the Miscellaneous & Ornamental Iron FSB category. The Attorney General's Office (AGO) has determined that the Awarding Authority must reject this V&G because their bid was obscure.
  - Sparks Company, Inc., did not list sub-subcontractors or themselves to perform the work of "Paragraph E". AGO confirmed that this bid must be rejected.
- **General Contractor Bid Status:** The General Contractor (GC) bid due date was changed from September 25<sup>th</sup> to September 30<sup>th</sup> to provide more time for preparation of the GC bids. Pushing this out also puts the award date within the MGL 45-day timeline. Bid results will be shared with the committee and presented at their October 2<sup>nd</sup> meeting.
- **Testing & Inspection Services:** Pending.
- **Community Outreach:** Review draft outline for outreach efforts/FAQ/events.
- **Storm Water Management Peer Review:** Pending determination of how the cost for these services in the amount of \$8,750 will be paid.

### ➤ PERMITTING PROCESS:

- Conservation Commission: The Commission follow up meeting was continued until 10/07/24, pending a completed peer review of the stormwater design.
- Planning Board: Meeting was held on 8/13/24. Application was approved contingent on Board of Health, ConCom, and joint peer review.
- MADOT Permit Application/Approvals: Traffic Study and Mass DOT permit application were submitted. Pending review.
- Board of Health: The engineer increased the size of the system to reflect the Board of Health's recommendation to include flow for the service bays. Pending review.

## **TOWN OF SEEKONK**

### **DEPARTMENT OF PUBLIC WORKS BUILDING COMMITTEE**

**DATE: Wednesday, September 4, 2024**

**TIME: 4:30 p.m.**

**PLACE: <https://us06web.zoom.us/j/84500488214?pwd=iNQm1t2dZxFT05iSJbClupQLRPaeOW.1>**  
**MEETING MINUTES**

**Present:** John Pozzi, Chair; Kevin Hurst, Edward Monigan

**Absent:** Michelle Hines, Michael Gagne

**Attendees:** David Cabral, Shawn Cadime Town Administrator, Jennifer Argo, Chris (BoS), Marybeth Carney, CGA Project Management (CGA); Dan Tavares, (CGA)

**A. Call to Order:** Chairman John Pozzi opened the Building Committee meeting 4:30 PM.

**B. OPM Report:**

1. CGA provided updates on activities held since the previous Building Committee meeting.
2. Construction Documents were available to contractors on 8/14/24. The Project Team is receiving and coordinating answers in addenda for contractor's Request for Information (RFI). The fourth addendum would be issued by the end of the week. Many prequalified General Contractors have been submitting RFIs, which indicates their interest in the project. CGA will forward instructions for the Building Committee to access the bid opening on Projectdog and share the bid tabulation identifying which subcontractors bid the project and for what amount. Filed Subcontractor Bids are due on 09/11/24 at 3PM and General Contractors on 09/25/24.
3. CGA mentioned that the project needs to hire an independent Testing Agency prior to the General Contractor starting onsite. The budget includes a \$100,000 line item for Testing, which will be further reviewed. CGA stated that they would request quotes from several qualified companies which will be shared with the Building Committee in the future.
4. CGA shared a list of possible options for the community outreach effort scheduled for the next two months. Items included posts on social media, public forums, flyers, local access TV, email blasts and posting banners and posters at key locations. D. Tavares recommended enlisting a core group of people that can send out information and post on the project website, starting with Frequently Asked Questions (FAQ). Public forums could be held, presenting at town boards, including the Finance Committee, to address any questions prior to Town Meeting. D. Tavares suggested posting the existing conditions video the DPW to the project website. BTGA would support the outreach campaign with images, graphics, and project related information. BTGA has \$5,000 for reimbursable expenses in their preconstruction budget, which could be used for printing the banners and signs. D. Tavares reminded the Building Committee that they could not ask for a "Yes" vote, only provide the facts. He noted that for school projects, typically a Political Action Committee (PAC) would be formed, who could push the 'Yes' vote, but it was unclear if a DPW project could do the same. A schedule will be created for the outreach events and task deadlines. Signs, banners and boards should be posted around town in the next few weeks, J. Pozzi recommended posting information at the Town Library. Information to be posted on the Project Website should be sent through S. Cadime.

5. E. Monigan suggested having a table at the “Pumpkin Somethin” event at the Aitken School on 9/21/24. The event is well attended by the town and provides an opportunity to inform the residents about the project. Possibly handing out pamphlets with project facts or a QR code to the project website. S. Cadime will coordinate the event with the PTO.
6. The Conservation Commission approval is contingent on a Stormwater Management peer review. The quote for the review from Weston and Sampson is \$8,750. D. Tavares asked if the cost of the review was to be paid out of the project budget or if there was a budget at the town level. S. Cadime explained that the applicant usually has to pay for the peer review, but the town would work with CGA to confirm where the funds would come from. D. Cabral noted that the first quote the Planning Department received for the review was \$15,000. The Planning Department reached out and received a second quote for \$8,750. S. Cadime will work with the Planning Department to confirm the cost.
7. The Town permitting process includes a follow up Conservation Commission meeting on 9/09/24. The Commission requested the engineer refresh the wetland flags, which they did. The Planning Board meeting was held on 8/13/24, and the project application was approved contingent on Board of Health, and the Conservation Commission peer review. The MassDOT permit was submitted and included a traffic study, which will be shared.
8. A reminder that the Town Meeting to vote on the project is on 11/18/24 and the Town Ballot Referendum vote would be on 11/25/24. The article language vote is being coordinated with the Board of Selectmen.

**C. Review and Approve Invoices:**

1. Kevin Hurst made the motion to recommend CGA Invoices DPW-016 in the amount of \$30,000 and DPW-017 in the amount of \$30,000, pending S. Cadime’s approval. The motion was seconded by Ed Monigan. The vote was unanimously approved.
2. Kevin Hurst made the motion to recommend NV5 Invoices 398842 in the amount of \$792 and 403055 in the amount of \$440.00, pending S. Cadime’s approval. The motion was seconded by Ed Monigan. The vote was unanimously approved.
3. Kevin Hurst made the motion to recommend BTGA Invoice 12170 in the amount of \$134,362.88 for S. Cadime’s approval. The motion was seconded by Ed Monigan seconded the motion. The vote was unanimously approved.
4. The building committee tabled voting on the Projectdog invoice.

**D. Review and Approve Meeting Minutes:**

Kevin Hurst made the motion to approve meeting minutes from 7/22/2024. The vote was seconded by Ed Monigan. The vote was unanimously approved.

**E. Other topics not reasonable anticipated by the Chairman 48 hours before the meeting:** None

**F. Public Comment:** None.

**G. Schedule Next Meetings:**

09/18/24 Building Committee meeting to approve FSB Bids at 4:30PM, virtual.  
10/02/24 Building Committee meeting to approve GC bids

**H. Adjournment:** K. Hurst made the motion to adjourn the meeting at 5:10PM. Ed Monigan seconded the motion. The vote was unanimously approved.
