

Seekonk Food Waste Drop Off

We're partnering with **Black Earth Compost** to collect household food waste from Seekonk Residents, saving valuable resources from the trash and saving money as well. 20-50% of household trash is food waste!

How Can I Participate?

There is a collection bin at the Transfer Station/TARF (351 Fall River Ave) You can visit anytime to deposit your household food waste. There are liners available-please only take what you need until your next visit.

No plastic bags! See **BlackEarthCompost.com** for a full list of items.

Do I Have To Pay?

This program is sponsored by the Recycling Committee, using grant funds to reduce waste. Black Earth takes the collection and turns it into compost to amend the soil and use for gardening.

Contact the Recycling Coordinator at DPW with any questions.
