Water Restrictions

The Southeast Region of Massachusetts is currently in a **Significant Drought Alert**. As a District we do not want to impose a mandatory No Outside Watering Ban but with drought conditions continuing we could become a **Critical Drought Alert**. If this happens we would impose a No Outside Watering Ban.

Fire Protection, adequate pressure, Water Treatment Plant Operation and well recovery are the primary reasons for having to impose the Ban. If everyone makes a concerted effort to **Conserve Water** and follow our current **Water Restrictions** hopefully we will get some much needed rain and not have to increase our restrictions.

Our current Restrictions: **Even** numbered houses on **Even** numbered days and **Odd** numbered houses on **Odd** numbered days from **5:00 AM to 8:00 AM** and **5:00 PM to 8:00 PM**. The DEP recommendation is only **Hand-Held Use**.
