

SEEKONK | Massachusetts

The Town utilizes CodeRED, through Onsolve, which is a mass notification system. It is used for general messages, Town wide notifications, and emergency alerts. We have recently begun to use the system for messages to town employees, eliminating the need for multiple notifications. You will be notified of town building closures, inclement weather delays, and other important information.

The notifications can be sent to multiple channels simultaneously, please fill out the following information and all the methods you wish to be contacted.

Full Name	Full Address
Email Address	Secondary Email Address
Cell Phone Number	Cell Phone Provider (For text messages)
Telephone Number	Secondary Telephone Number
Additional Contact Information	Contact Method (Email, Phone, etc)
Additional Contact Information	Contact Method (Email, Phone, etc)

Changes to your current contact information can be made with this form.
